Water for the World

Overview of Rural Water Supply Technical Note No. RWS. G

The technical notes on rural water supply are divided into five series as shown in Table 1: RWS.1 - Surface Water; RWS.2 - Ground Water; RWS.3 -Water Treatment; RWS.4 - Water Distribution; and RWS.5 - Water Storage. Within each series, the technical notes are organized according to methods (M), planning (P), design (D), construction (C) and operation and maintenance (0). All technical notes have both a title and a number within each category indicating where they fit on Table 1. For example, RWS.3.P.3, "Analyzing a Water Sample," is part of the Water Treatment series (3), discusses planning (P), and is the third technical note in the 3P series (3). See "Overview of Water and Sanitation System Development, " HR.G, for a full discussion of the organization of the technical notes and a list of all of them. The rural water supply technical notes are listed at the end of this note.

If possible, the technical notes should be read and used in order of methods, planning, design, construction, and operation and maintenance. This will give the reader a thorough understanding of the subject covered and allow him or her to proceed with the activity in an orderly manner. methods, planning and design technical notes were written for people with some experience with water supply systems who are responsible for project design and decision-making. The construction and operation and maintenance technical notes, in most cases, may be used by people with less experience since these activities involve little or no decision-making. Thus, the construction and operation and maintenance technical notes may be used by someone who is carrying out their tasks, but is working under another person who has consulted the methods, planning and design notes for that particular project.

List of Technical Notes

The following is a list of all the technical notes on rural water supply.

RURAL WATER SUPPLY

			RWS.1 S	urface W	ater
RWS.G	Overview	of	Rural	Water	Supp1

Methods

RWS.1.M	Methods	of	Developing	Sources	of	Surface	Water
---------	---------	----	------------	---------	----	---------	-------

Planning

RWS.1.P.1	Planning How to Use Sources of Surface Water
RWS.1.P.2	Conducting Sanitary Surveys to Determine Acceptable Surface Water Sources

RWS.1.P.3 Selecting	a	Source	of	Surface	Water
---------------------	---	--------	----	---------	-------

RWS.1.P.4	Choosing	Where	to	Place	Intakes
-----------	----------	-------	----	-------	---------

RWS.1.P.5 Evaluating Rainfall Catchments

Design

RWS.1.D.1	Designing	Structures	for	Springs	٠

RWS.1.D.2	Designing	Intakes	for	Ponds,	Lakes	and	Reservoirs
-----------	-----------	---------	-----	--------	-------	-----	------------

RWS.1.D.3 Designing	Intakes	for	Streams	and	Rivers
---------------------	---------	-----	---------	-----	--------

RWS.1.D.4	Designing	Roof	Catchments
-----------	-----------	------	------------

RWS.1.D.5 Designing Small Dams

Construction

RWS.1.C.1		Constructing	Structures	for	Springs
-----------	--	--------------	------------	-----	---------

RWS.1.C.2 Constructing	Intakes	for	Ponds,	Lakes	and	Reservoirs
------------------------	---------	-----	--------	-------	-----	------------

RWS.1.C.3 Cons	tructing Intakes	for Streams	and Rivers
----------------	------------------	-------------	------------

RWS.1.C.5 Constructing Small Dams

Operation and Maintenance

RWS.1.0.1	Maintaining	Structures	for	Springs
RWS.1.0.1	Maintaining	Structures	for	Springs
				- •

RWS.1.0.2 Maintaining Intakes	RWS.1.0.2	Maintaining	Intakes
-------------------------------	-----------	-------------	---------

RWS.2 Ground Water

	KW3.2 Ground Water
Methods	
RWS.2.M	Methods of Developing Sources of Ground Water
Planning	•
RWS.2.P.1	Planning How to Use Sources of Ground Water
RWS.2.P.2	Selecting a Method of Well Construction
RWS.2.P.3	Selecting a Well Site
Design	
RWS.2.D.1	Designing Dug Wells
RWS.2.D.2	Designing Driven Wells
RWS.2.D.3	Designing Jetted Wells
RWS.2.D.4	Designing Bored or Augered Wells
RWS.2.D.5	Designing Cable Tool Wells
Construction	
RWS.2.C.1	Constructing Dug Wells
RWS.2.C.2	Constructing Driven Wells
RWS.2.C.3	Constructing Jetted Wells
RWS.2.C.4	Constructing Bored or Augered Wells
RWS.2.C.5	Constructing Cable Tool Wells
RWS.2.C.6	Maintaining Well Logs
RWS.2.C.7	Testing the Yield of Wells
RWS.2.C.8	Finishing Wells
RWS.2.C.9	Disinfecting Wells
	RWS.3 Water Treatment
Methods	
RWS.3.M	Methods of Water Treatment
Planning	
RWS.3.P.1	Determining the Need for Water Treatment
RWS.3.P.2	Taking a Water Sample
RWS.3.P.3	Analyzing a Water Sample
RWS.3.P.4	Planning a Water Treatment System

,			
<u>Design</u>			
RWS.3.D.1	Designing Basic Household Water Treatment Systems		
RWS.3.D.2	Designing a Small Community Sedimentation Basin		
RWS.3.D.3	Designing a Slow Sand Filter		
RWS.3.D.4	Designing a Small Community Disinfection Unit		
RWS.3.D.5	Water Treatment in Emergencies		
Construction			
RWS.3.C.1	Constructing a Household Sand Filter		
RWS.3.C.2	Constructing a Sedimentation Basin		
RWS.3.C.3	Constructing a Slow Sand Filter		
RWS.3.C.4	Constructing a Disinfection Unit		
Operation and Maintenance			
RWS.3.0.1	Operating and Maintaining Household Treatment Systems		
RWS.3.0.2	Operating and Maintaining a Sedimentation Basin		
RWS.3.0.3	Operating and Maintaining a Slow Sand Filter		
RWS.3.0.4	Operating and Maintaining a Chemical Disinfection Unit		
RWS.4 Water Distribution			
Methods			
RWS.4.M	Methods of Delivering Water		
Planning			
RWS.4.P.1	Choosing Between Gravity Flow and Pumps		
RWS.4.P.2	Choosing Between Community Distribution Sytems and Household Water Connections		
RWS.4.P.3	Selecting Pipe Materials		
RWS.4.P.4	Selecting a Power Source for Pumps		
RWS.4.P.5	Selecting Pumps		
RWS.4.P.6	Manufacturing Hand Pumps Locally		
Design			
RWS.4.D.1	Designing a System of Gravity Flow		
RWS.4.D.2	Determining Pumping Requirements		
RWS.4.D.3	Designing a Transmission Main		

:

RWS.4.D.4	Designing Community Distribution Systems	
RWS.4.D.5	Designing a Hydraulic Ram Pump	
Construction		
RWS.4.C.1	Installing Pipes	
RWS.4.C.2	Installing Mechanical Pumps	
RWS.4.C.3	Installing Hand Pumps	
RWS.4.C.4	Constructing Community Distribution Systems	
RWS.4.C.5	Constructing a Distribution System with Household Connections	
Operation and Ma	intenance	
RWS.4.0.1	Detecting and Correcting Leaking Pipes	
RWS.4.0.2	Operating and Maintaining Mechanical Pumps	
RWS.4.0.3	Operating and Maintaining Hand Pumps	
RWS.4.0.5	Operating and Maintaining Household Water Connections	
RWS.5 Water Storage		
Methods		
RWS.5.M	Methods of Storing Water	
Planning		
RWS.5.P.1	Determining the Need for Water Storage	
Design		
RWS.5.D.1	Designing a Household Cistern	
RWS.5.D.2	Designing a Ground Level Storage Tank	
RWS.5.D.3	Designing an Elevated Storage Tank	
Construction		
RWS.5.C.1	Constructing a Household Cistern	
RWS.5.C.2	Constructing a Ground Level Storage Tank	
RWS.5.C.3	Constructing an Elevated Storage Tank	
Operation and Maintenance		
RWS.5.0.1	Maintaining Water Storage Tanks
