1.0 GENERAL - FORMAT AND INFORMATION

The Ameritech Bell Group Product Catalog is published by Ameritech Services for the use of Illinois Bell, Indiana Bell, Michigan Bell, Ohio Bell and Wisconsin Bell personnel who have responsibility for product ordering.

The preface and ordering information format is broken down by company in each section. For example, if you are in Illinois and have a question concerning Authority Numbers, you would first refer to Section 7.0, Authority Numbers, and then look for the specific Illinois instructions. Likewise, if you are in Michigan and have a concern regarding Emergency Orders, you would first look under Section 2.0, Emergency Orders, and then look for the Michigan instructions contained in that section.

Included in this catalog are items that are available from stock through the Ameritech Distribution Center (ADC) and non-stock items that are available from approved suppliers.

All of the items listed in this catalog may not be available to order for your respective state. If you require an item that is not authorized for your state to order, contact your local staff.

Following are the appropriate telephone numbers to access APROMS (touch-tone ordering system) and additional services for your state.

4.0 CATALOG SECTIONS

This Product Catalog has all items listed alphabetically by sections. Following is a breakdown of the sections and the major material components of each section. The sections are listed in the order they appear in the catalog.

<u>SECTION</u>	<u>MATERIAL</u>
1 - Distribution Services	Cable & Wire General Hardware Optical Cable & Wire Outside Plant Public Communications Equipment (Coin)
2 - Network Services	C.O. Power Apparatus & Support C.O. Switching Apparatus & Support C.O. Transmission Apparatus & Support
3 - Tools	Static Control Products Test Equipment Tools Wearing Apparel
4 - Building/Janitorial	General Building & Janitorial
5 - Automotive	Miscellaneous Auto Parts
6 - Forms/Office Supplies	First Aid & Medical Supplies Forms Office Supplies
7 - General	Customer Premises Equipment Packing Material
8 - Data/Voice	Headsets LAN Equipment Modems Computer Hardware & Software

CONFIDENTIAL

Subject to restrictions on first page.

5.0 CATALOG HEADINGS

Within each designated section, all items are listed in alphabetical order. Following is an explanation of the Column Headings associated with each item listing.

Product Identifier (PID): A unique nine-digit number to identify a product item. This number should be used to identify non-stock items only when ordering through Ameritech Services.

Description: Contains the correct nomenclature, using the noun description, i.e., "Connecting Block" is "Block Connecting." This column may also refer to the Bell System Practice where further information can be obtained.

NOTE: Bell System Practice (BSP) numbers listed in this catalog are those that were issued with the original items. Revisions to local state practices or the new Ameritech Practice numbers will be included as that information becomes available.

Item Number: The number listed in the seven-digit number for the stock item. This number should be used for ordering stock items only.

Sell Unit: Ordering unit (ea. = each). Refer to list of standard abbreviations (Section 6.0).

Ordering Multiple: A numeric field to indicate the quantity multiple by which the stock item is sold to the customer. Please consult your Customer Service Center if you have a question concerning a specific item.

Availability: This column indicates what Ameritech Bell operating companies are currently authorized to order a particular stock item. A two-digit numerical Pattern Account (PA) Code (see Preface 9.0) under a state designation indicates that a state is authorized to order that item. If the corresponding space for a state is blank, it indicates the stock item is not currently authorized for ordering.

NOTE: The Availability column is for stock material only. If you require an item that is not authorized for ordering in your company, please consult your local staff.

NON-STOCK ITEMS

Minimum Order Quantity: This number indicates the minimum number of items the supplier will ship (non-stock material only).

Sell Unit: Ordering unit (ea. = each). Refer to list of standard abbreviations (Section 6.0).

Standard Package: Indicates the quantity multiple in which the item is sold (non-stock material only).

CONFIDENTIAL

5.0 CATALOG HEADINGS (CONTINUED)

Lead Time (Weeks): The lead time is the average number of weeks from receipt of the order by the Supplier to delivery to your location (non-stock material only).

NOTE 1: Due to proprietary information consideration, item price information has not been included. If specific price information is required, please contact your local Customer Service Center.

NOTE 2: The maximum ordering quantity of an item that can be ordered is not identified in the catalog due to variations for each state. The maximum allowed for your state will be identified to you by CISCOE at the time your order is placed.

CONFIDENTIAL

Subject to restrictions on first page.

6.0 ALPHABETICAL LISTING OF SELLING UNITS

This attachment is designed as a guide to be used in ordering materials. This list is not to be considered all-inclusive, but reflects known abbreviations utilized at this time.

**9.0 REGIONAL STANDARD PATTERN ACCOUNT CODES (PA) -
STOCK ITEMS ONLY**

Pattern Account Code numbers are assigned to material groups as a joint function of the Operating Company Comptrollers and Purchasing Procurement.

The term "Pattern Accounting" refers to the use of predetermined accounting procedures and provides for the Mechanical Selection of Accounts, Account Codes, or Function Codes. Under the plan, a two-digit Pattern Account Code number is assigned to material item(s) of the same general category.

Following is a summary of Pattern Account Codes:

- 01 - OCE Retirement Unit-Data
- 02 - Telephone and Misc.-Reti-Units
- 03 - OCE-Repair & Expense-Data
- 04 - Tel. & Misc.-Other Costs-Voice
- 05 - OCE-Repair & Expense-Voice
- 07 - Non-Metallic Cable-Exempt
- 08 - Metallic Cable Supplies-Exempt
- 09 - COE Maint./Matl. Rearrangement
- 10 - Electronic Switch Components
- 11 - OCS Radio Repair Eqpt.
- 12 - Expense Tool
- 13 - Capital Tool
- 14 - Poles Material-Exempt
- 15 - Plant Supplies Nonexempt
- 16 - Aerial Wire Supplies-Exempt
- 17 - Misc. Tool Expense
- 18 - Station Connection Material-Exempt
- 21 - Optical Fiber Material-Exempt
- 25 - Line-Backer Sets
- 26 - Tool Maintenance Material
- 30 - DDS Equipment
- 31 - House Services & Misc. Non-Office Supplies
- 32 - Packing Material
- 33 - Sta. & Office Supplies
- 34 - First Aid Supplies
- 35 - Conduit Supplies-Exempt
- 39 - Channel Termination Equipment
- 48 - Building Repairs
- 50 - Station Conn. Mat'l Drop Wire
- 53 - Public Repair Items-Coinless
- 54 - Public Repair-Others
- 55 - Coin-Operated

10.0 ORDERING STOCK MATERIAL - OTHER THAN THROUGH TOUCH-TONE ORDER ENTRY

Stock Items should be ordered through the touch-tone ordering system (APROMS). Some states do, however, have alternative ordering procedures.

ILLINOIS

Stock Items may be ordered by telephone (312-558-6880). Please provide following information as requested by order taker.

1. Authority Number
2. Ship To Address: Street, Town, or Chicago District, Room, Floor, Truck Route
3. Material Usage Number
4. Customer (Company or Subscriber's Name) (Order By)
5. Originator or Control Center Phone Number
6. Responsibility Code Charged
7. Geographical Location (A seven-digit number)
8. Estimate-KCX-KC
9. Stock Item Number
10. Quantity
11. Servicing Information (When ordering items with specific phrase address information, furnish it directly following the item involved.)
12. Do Not Sub
13. Field Reporting Code - Job Function Code

Cable

All cable and major apparatus material must be ordered through cable management.

- Assistant Manager (708) 450-2490/2491
- Non-Stock Cable (708) 450-2492
- Stock Cable & Claims (708) 450-2493
- Major Apparatus (708) 450-2497

Forward all requisitions (AM532) for non-stock cable, fiber optic cable, and major apparatus material to:

Cable Manager
303 W. Lake
Northlake, IL 60164

CONFIDENTIAL

Subject to restrictions on first page.

10.0 ORDERING STOCK MATERIAL - OTHER THAN THROUGH TOUCH-TONE ORDER ENTRY (CONTINUED)

INDIANA

Call In Order Placement - (317) 265-3411

Order Schedule - Telephone orders may be placed from 7:30 AM to 5:00 PM Monday through Friday. Telephone orders shall be placed by forces that cannot touch-tone in their orders, i.e., over basic max, variable ship address or that require specific accounting (MU 20). A confirming MU 20 ordered with the appropriate approvals should be forwarded to the order desk to support the call in order. "Confirming order to _____" should be entered on the order to avoid a duplicate shipment.

Step by Step Procedures - To expedite placing your order, the following information in this sequence shall be given to the order clerk.

1. Identify the order to the order taker as:
 - A. Emergency Order
 - B. Variable Ship Order - (Delivery address different than that authorized on your authority number).
 - C. Over Basic Maximum Order - (Quantity requirements greater than what is allowed on your authority number).
 - D. MU 20 Order - (Refer to following MU 20 Information).

NOTE: ORDERS that do not apply to the above situations should be placed through the touch-tone ordering system CISCOE. Requests for training should be directed to (317) 265-7581.

2. Name and telephone number
3. Authority number.
4. Material usage number (MU).
5. Special requisition phrase number instruction.
6. Item number.
7. Special item phrase number when required "Do not sub next item."
8. Quantity.
9. Repeat steps 6, 7, and 8 until order is complete.

Mail-in Requisition - Stock Items should be ordered through the touch-tone ordering system, APROMS, whenever possible. Orders with special requirements, over Basic Maximum, Variable Ship, and MU 20, may be mailed to:

Ameritech Services - Customer Service Center
240 N. Meridian, Rm110
Indianapolis, IN 46204

Orders for Stock Cable **MUST** be placed using MACS.

CONFIDENTIAL

10.0 ORDERING STOCK MATERIAL - OTHER THAN THROUGH TOUCH-TONE ORDER ENTRY (CONTINUED)

If is necessary to have next day delivery for cable, a telephone order may be placed by calling the Cable Manager on (317) 265-3383 or (317) 265-3374.

Instructions for Completing Form AM532-1 - The following numbered instructions correspond to those on Form AM532-1. Please complete this form in its entirety.

1. Date Prepared - Enter current date.
2. Date Required - Enter date material is needed at the job site.
3. Ship to: Variable shipping address - to be completed only if the shipping address differs from that assigned to the authority number being used. If shown, it must be complete, including zip code.
4. Special Instructions - Enter special instructions as required - Can be used for FUTURE SHIP DATE - complete only when future non-standard shipping interval is required.
5. Authority number - Enter your assigned stock ordering authority number, or the authority number of person authorizing order. If you do not have an authority number assigned, or are ordering over basic maximum, leave blank.
6. Material Usage Number (MU) - Enter the MU number to be charged with items being ordered.
7. Geo Code, RCO, RCC - to be completed only if MU 20 is reported or specific accounting is required.
8. Job/Auth/Est - This information is for identification purposes.
9. Func/Field Acct - to be completed only if MU 20 is reported.
10. Product ID No. - Enter the item number as shown in the Ameritech Bell Group Product Catalog.
11. Quantity - Enter Quantity needed.
12. Unit - Enter ordering unit.
13. Description - Needed for Specific Accounting, MU 20 orders.
14. Ordered by and Telephone number - Enter the name and telephone number of person preparing the order or person to contact for inquiries regarding the order.
15. Final Approval - Obtain required management approval. Social Security number is not required.

CONFIDENTIAL

Subject to restrictions on first page.

10.0 ORDERING STOCK MATERIAL - OTHER THAN THROUGH TOUCH-TONE ORDER ENTRY (CONTINUED)

MICHIGAN

In addition to order via APROMS touch-tone ordering system (see APROMS section for instructions) material may be ordered via Form AM532. This form must be used when the following conditions apply:

1. No Authority Number
2. Authority Number's Material Usage Codes not authorized to order that type of material.
3. Pattern Account is controlled (meaning that type of product requires a hard copy flow and individual purchase approval as established by MBT personnel for local control and automatic APROMS touch-tone ordering is prohibited).

NOTE: All AM532 orders for stock material must be prepared, approved, and all individual local Michigan Bell procedures for certain types of products must also be met. For example, certain cable orders must go through the Cable Manager's Office; Capital Tool Orders through the Capital Tool Coordinator; Official Communications Orders through Asset Assurance Staff; etc. Please forward all other requisitions to:

Ameritech Services Customer Service Center
35275 Industrial Rd.
Livonia, Michigan 48150

OHIO

The use of APROMS/Touch-Tone is the preferred method for the ordering of stock material and expense tools. See APROMS section for instruction. When CISCOE/Touch-Tone is not possible, Form AM532-1 should be used. The Authority Number, MU Number, RCO, RCC, Geographic Location, and Account or Function Code must be completed. Final approval in accordance with CPPM 1.003 is **MANDATORY**. Send requisition to:

Ameritech Services Customer Service Center
1st Floor
7305 Fleet Ave.
Cleveland, OH 44105

CONFIDENTIAL

Subject to restrictions on first page.

10.0 ORDERING STOCK MATERIAL - OTHER THAN THROUGH TOUCH-TONE ORDER ENTRY (CONTINUED)

WISCONSIN

Stock items should be ordered as follows:

1. User groups ordering material stocked at Curtis Road/Eau Claire should use the appropriate "Want Slip."
2. Tools - (Capital and Expense) should be ordered on Form AM532-1.
3. Material requiring special accounting, or if the orderer does not have an authority number to order, should be entered on Form AM532-1 showing MU 20 and true accounting.
4. All Data and Teletypewriter stock parts and complete stations that are stock should be ordered on Form AM532-1 using MU 57 or 58, whichever is appropriate.

Following are the procedures to be used when ordering stock material from Curtis Road/Eau Claire:

A Form or "Want Slip" must be filled out to order material from Curtis Road. These Forms or "Want Slips" should be faxed to Curtis Road and the material requested will be received at the report location the next business day. There is one form or "Want Slip" per user group and also one "Want Slip" common to all user groups. The "Want Slips" to be used are as follows:

FORM

USER GROUP

M461-1 Line Material Supply Order	Construction (Lineman)
M462-1 Cable Material Supply Order	Construction (Cable)
M3179-1 Miscellaneous Material Supply Order	All User Groups
M3179-2 OCS/I&M Material Supply Order	OCS & I&M
M3179-2 Coin	

NOTE: These Forms (Want Slips) have about 100 most commonly used items preprinted on them. Other stock items are listed in the catalog.

CONFIDENTIAL

Subject to restrictions on first page.

**10.0 ORDERING STOCK MATERIAL - OTHER THAN THROUGH
TOUCH-TONE ORDER ENTRY (CONTINUED)**

AMERITECH SERVICES

Stock items may be ordered by telephone (708) 248-2532, mail-in or fax. Please provide information as requested by order taker.

1. Requisition Number will be produced by machine
2. Authority Number
3. Building Location of Ship To Address
4. Floor Location (to be typed over Title line)
5. Name of Customer to Receive Material
6. Phone Number of Originator
7. Main/Func/Sub
8. Organization Number to be Charged and Building Location
9. Item Address or PID Number of Item Being Ordered (this number should be typed in the Item Number field)
10. Quantity
11. Any remarks that correspond to the order being placed should be typed in the Order Remarks section, on the lines titled "RDC"

CONFIDENTIAL

Subject to restrictions on first page.

22. Preliminary Approval/Final Approval - Obtain proper required management approval. Social Security number is not required.
23. Budget Approved - N/A.
24. Suggested Supplier - Useful for informational purpose, but does not guarantee the suggested supplier will be contacted.
25. G/L Verification - N/A.

Any questions pertaining to the preparation of this form should be referred to the Customer Service Center on (317) 265-3468.

Forwarding: Forward all requisitions for non-stock material and supplies to:

Ameritech Services Customer Service Center
240 N. Meridian St. Room 110
Indianapolis, Indiana 46204

- Non-stock cable should be ordered through MACS
- To order capital tools, refer to Section 12.0

CONFIDENTIAL

Subject to restrictions on first page.

11.0 ORDERING NON-STOCK MATERIAL (CONTINUED)

MICHIGAN

All non-stock material may be ordered on a Requisition Form AM532. All AM532 requisition orders must be prepared, approved, and all individual local Michigan Bell procedures established for certain types of products must also be met. For example: certain Cable Orders must go through the Cable Manager's Office; Capital Tool Orders through the Capital Tool Coordinator; Official Communication Orders through the Asset Assurance Staff; etc.

Please forward all other Requisitions to:

Ameritech Services Customer Service Center
35275 Industrial Rd.
Livonia, Michigan 48150

OHIO

Non-stock items must be ordered on Requisition, Form AM532-1. Mandatory information required is complete Ship To address, Authority Number, MU Number, RCO, RCC, Geographic Code (Area) and correct Account Code or Function Code for material being ordered. Telephone Company Requisition must have Final Approval in accordance with CPPM 1.003.

Forwarding: Send Requisitions to:

Ameritech Services Customer Service Center
1st Floor
7305 Fleet Avenue
Cleveland, OH 44105

WISCONSIN

All user groups should use Form AM532-1 when ordering non-stock material. All required information must be filled out correctly and proper approval is required. Questions concerning Form AM532-1, approval levels or any other matters concerning non-stock ordering may be referred to the Wisconsin Customer Service Center. For assistance, call (414) 523-7901. Mail Completed forms to:

Customer Service Center
N17 W24300 Riverwood Drive, Floor 1
Waukesha, WI 53188

For urgent or rush orders, fax completed forms to (414) 523-7904.

CONFIDENTIAL

11.0 ORDERING NON-STOCK MATERIAL (CONTINUED)

AMERITECH SERVICES

When placing an order verbally, please provide order information in the sequence listed below. Call-in orders - (708) 248-2532; Mail-in - Use Form AM532. Mail to:

Order Administration
2000 W. Ameritech Center Dr.
Loc. 3A33C
Hoffman Estates, IL 60196-1025

1. Running Order Number (if applicable)
2. Authority Number
3. Building Location
4. Floor Location (to be typed in Address Line 2)
5. Name of Customer to Receive Material
6. Phone Number of Person Originating Order
7. Main/Func/Sub
8. Organization Number to be Charged and Building Location Code
9. Approximate Cost of Entire Order
10. Record Only? (for use when processing invoices and when a hard copy purchase order is not required by the vendor)
11. Non-Stock PID (to be put in Item field, if applicable)
12. Description of Item and Any Non-Stock Catalog Numbers (any other information that may be necessary to process the item can be placed in the Description fields and the Item Remarks fields that follow)
13. Quantity
14. Unit
15. Date Wanted

If ordering through the mail or FAX, all the above information should be provided on your mail-in order form.

CONFIDENTIAL

Subject to restrictions on first page.

12.0 ORDERING TOOLS

Following are state-by-state instructions for the ordering of tools:

ILLINOIS

Capital Tools - Form AM532 must be prepared and submitted to:

Capital Tool Administrator
225 W. Randolph, HQ-8C
Chicago, IL 60606

No orders for Capital Tools will be accepted via telephone by the Customer Service Center.

Expense Tools - These tools may be ordered through the order placement number (312-558-6880) or via touch-tone transmission.

INDIANA

Stock Expense Tools - May be ordered through CISCOE or submitted on Form AM532-1 (Refer to Section 10.0 for ordering stock material.)

Non-Stock Expense Tools - May be ordered on Form AM532-1. (Refer to Section 11.0 for ordering non-stock material.)

Major Expense and Capital Tools - May be ordered on Form AM532-1 and submitted to:

Capital Tool Administrator
2941 Shelby, Room 100
Indianapolis, IN

Refer to the Outside Plant Tool Handbook for identification of major expense and capital tools. Copies of the handbook may be obtained by contacting (317) 265-8678.

MICHIGAN

Stock Expense Tools - These tools may be ordered via touch-tone transmission or by the Customer Service Center via Form AM532. All departments except those people using C.O. Authority numbers are issued special expense Tool Authority numbers which must be used to order expense tools.

Non-Stock Expense Tools - Must be ordered on Form AM532 like any other non-stock item.

CONFIDENTIAL

12.0 ORDERING TOOLS (CONTINUED)

OHIO

Capital Tools - Stock and non-stock must be ordered on Telephone Company Requisition Form AM532-1. Mandatory information required includes Ship To Address, Authority Number, MU Number, RCO, RCC, Geographic Code (Area), and correct Account Code or Function Code for material being ordered.

Stock Expense Tools - Are ordered via touch-tone transmission

Non-Stock Expense Tools - Must be ordered on Requisition Form AM532-1. Mandatory information required is complete Ship To Address, Authority Number, MU Number, RCO, RCC, Geographic Code (Area) and correct Account Code or Function Code for material being ordered. Telephone Company Requisition must have Final Approval in accordance with CPPM 1.003.

WISCONSIN

Distribution Services and Network Switched Service Departments are issued authority numbers to those authorized to order tools and should order as outlined below.

- Stock and non-stock tools and storeroom equipment are to be ordered on Form AM 532-1. The tool using number and proper MU is contained in the authority record issued to the orderer. Charges are automatically made to the Tool Using Area and RC of the orderer.
- The proper approval must be obtained before sending the request to the Customer Service Center.
- Other departments, because of the infrequency of tool ordering, have not been issued tool authorities. Form AM532-1 should be used in these infrequent tool ordering instances.
- All approved tool requisitions are to be sent to:

Customer Service Center
N17 W24300 Riverwood Drive, Floor 1
Waukesha, WI 53188

Fax forms to (414) 523-7904. For assistance, call (414) 523-7901.

Capital Tools - Stock and non-stock must be ordered using Form AM532-1. All requests must go through the organization Corporate Capital Tool Administrator before being submitted to the Customer Service Center.

CONFIDENTIAL

Subject to restrictions on first page.

13.0 CLAIMS/WARRANTIES

Unsatisfactory Shipments/Material

- not received
- shortage
- over shipment
- duplicate shipment
- wrong item
- defective item
- damaged item

Should be reported to your Customer Services Claim Representative in your state at the following numbers:

<u>ILLINOIS</u>	(312) 558-3594 (708) 450-2493 Cable/Major Outside Plant
<u>INDIANA</u>	(317) 265-3243
<u>MICHIGAN</u>	(313) 265-0431
<u>OHIO</u>	(216) 441-7730
<u>WISCONSIN</u>	(414) 523-7925
<u>AMERITECH SERVICES</u>	(708) 248-2533

NOTE: Items ordered incorrectly by user are not covered by claims processes. They should be returned via MP74-1. See Section 14.0 (Returned Material) for details.

ENGINEERING COMPLAINTS:

Engineering Complaints should be sent through your local AOC Technical Staff Organization.

CONFIDENTIAL

Subject to restrictions on first page.

14.0 RETURNED MATERIAL

The MP74-1 Return Material Notice (RMN) and associated forms MP74-2 and MP74-3 are used to return material to Ameritech Services and to ensure proper credit processing to specific amounts and/or organizations.

In general, the RMN (MP74-1) is used for the following functions:

- Salvageable Scrap and Retirement
- Disposition of some Capital and Expense Tools
- Return of ADC Stocked items in ADC "sell" units as listed in catalog
- Return of Engineering Complaint material

Return of the following items is not permitted:

- Partial cases or containers
- Hazardous/ORM-D materials in damaged or leaking containers
- Hazardous materials not accompanied by properly prepared shipping papers
- Items that are past or approaching (within 3 months) of a use by or expiration date
- Non-stock disposition
- Items discontinued from ADC stock

Please call your local Customer Service Center to obtain RMN numbers, and for assistance in forms preparation, distribution, and application usage.

NOTE: In Illinois use Form 299 for return of cable and major apparatus material.

Service Repair and Return Procedures for Non-Stock Material

Please call your local Ameritech Services Customer Service Center to place an order or to obtain assistance.

Prepare Form PM 429, Repair and Return Tag & Label, referencing the Purchase Order number provided by the Customer Service Center.

To expedite your call-in orders(s) please have the following information available:

Name
Address
Telephone Number
Responsibility Code
Geographical Location Code
Quantity
Equipment Name (complete description)
Manufacturer
Model Number
Serial Number
Vendor Name (Repair Vendor if known)
Problem - Detailed information of what's wrong with the equipment

CONFIDENTIAL

Subject to restrictions on first page.

14.0 RETURNED MATERIAL (CONTINUED)

RMN and SR&R Numbers

If any additional information concerning Returned Material or Service Repair and Return is needed, please call your local Customer Service Center at the following numbers:

NOTE: In Michigan the Customer Service Center will prepare all associated paperwork.

<u>ILLINOIS</u>	(312) 558-6880	
<u>INDIANA</u>	(317) 265-7404	
<u>MICHIGAN</u>	(313) 523-0431	(RMN)
	(313) 523-0800	(Order Placement)
	(708) 248-3712	(Receipting and Order Inquiry)
<u>OHIO</u>	(216) 441-7730	
<u>WISCONSIN</u>	(414) 523-7925	(RMN)
	(414) 523-7900	(SR&R)

CONFIDENTIAL

Subject to restrictions on first page.

15.0 TRANSPORTATION, PICKUP AND DELIVERY

ILLINOIS

Transportation Orders

When placing transportation orders, please call (312) 558-6880 and provide information in the sequence requested by the order taker.

Phase 1 (From)

Hazardous Material (Yes or No)
Geographical Location (7-digit pickup address)
Responsibility Code Originating (Area) (7-digit number)
Estimate Order Number or KCX (When applicable)
Order Remarks
Total Weight (Approximate)
Unit (Lbs.)
Contact Name
Originator's Telephone (Number)
Company Name
Name/Dept (Of person requesting service)
Address (Where material is to be picked up from/moved)
Room/Floor (Always necessary)
Town/District (If Chicago-must use District)
State
Zip Code
Date
Time Wanted (Appointment time for building cable moves)

Phase 2 (To)

Company Name
Name (Of person/place material is to be moved to. Please specify if pickup is being returned to the transship location at Northlake or Springfield.)
Address (Of place material is to be moved to)
Room/Floor (Always necessary)
Town/District
State
Zip Code
Date
Time (Appointment time for building cable moves)
Quantity (Number of cartons, reels, packages, etc.)
Unit
Code/Account (Move/Pickup to be charged to)
Item Description

Chicago and suburban call	(312) 727-4093
State moves call	(217) 789-5720

Eau Claire (715) 839-5577

CONFIDENTIAL

Subject to restrictions on first page.

AMERITECH PROCUREMENT MANAGEMENT SYSTEM

(Effective July 1, 1992)

APROMS

Touch-Tone Digital Transmission (TTDT) Instructions

1.0 GENERAL

This section describes how to order both stock and non-stock material through the Ameritech Procurement Management System (APROMS) using Touch-Tone Digital Transmission (TTDT).

APROMS is a purchasing order entry system used and supported by Ameritech Services, Incorporated. TTDT, a feature of the APROMS system, permits authorized employees, using a standard Touch-tone telephone set, to order material without the assistance of the Customer Service Desk. The telephone set must be equipped with twelve touch-tone keys to provide for transmitting zero through nine plus star (*) and pound (#) sign tones.

TTDT orders may be placed on a twenty-four hour basis.

When you call the TTDT access telephone number, a digitized voice will answer and request your authority number and customer ID number IF your authority number is duplicated within the Ameritech region, materials usage (MU) number, customer requisition number, item number or product identifier number (PID), and quantity information. After you have finished ordering, you will be given a system generated Ameritech Services requisition number and instructed to use that number for reference. During the order entry process, you will be given the option of hearing the item description. The system will also tell you about back-order conditions, excessive order quantities, unauthorized or incorrect entries, and identification of non-stock items. You will also have the option of obtaining an item's price.

With proper authority, all items identified by seven-digit item numbers and a limited number of non-stock items identified by nine-digit product identifier (PID) numbers may be ordered via TTDT. **The only stock item exceptions are capital tools and orders which use a MU code of 20.**

NOTE: MU 20 orders require specific accounting. Such orders must be placed with the Customer Service Desk - by phone call or hard copy.

CONFIDENTIAL

Subject to restrictions on first page.

2.0 COMPUTER CONTROLS

Each authority number is an assigned number and has assigned material usage and quantity controls. Material usage number(s) and the authority address are shown on your authority card.

The computer checks the following:

- Who can order or obtain pricing information by checking authority number
- What can be ordered by checking material usage number
- How much can be ordered by checking quantity controls
- Where an item can be shipped by checking the group number

The Ameritech Services Customer Service Desk should be contacted if computer controls consistently interfere with obtaining adequate quantities and/or types of material.

3.0 TIME-OUT FEATURE

The TDDT system has a time-out feature which functions after 30 seconds. The computer will audibly request that you continue ordering. If you fail to do so after three separate 30 second prompts, the system will disconnect from the line and your order will not be processed.

Therefore, before calling the APROMS TDDT system, prepare a list of item numbers or product identifiers (PIDS) and the quantities you intend to order. Having a list of items ready will make it possible to enter information promptly and avoid time-out problems.

The time-out feature will also function if you forget to register entries with the pound (#) sign as explained in the next section 4.0.

4.0 USE OF STAR (*) AND POUND (#) KEYS

A 12 button Touch-tone phone equipped with the Star (*) and Pound (#) keys must be used when placing TDDT orders to APROMS.

You must press the Star (*) key before each numbered command (e.g., *3# - delete last item; *4# - repeat last prompt, etc.). The star commands are explained in greater detail in later sections of this instruction.

EVERY entry **MUST** be registered with the pound (#) key. If the system does not receive the pound (#) tone, it will cause the time-out feature to function as described in section 3.0 of this instruction and your order will not be processed.

CONFIDENTIAL

Subject to restrictions on first page.

5.0 POLARITY GUARDS

Certain types of central office equipment reverse battery and ground. This condition makes it impossible to transmit touch-tone frequencies over telephone lines to the computer. This problem can be corrected by arranging to have a polarity guard installed in the telephone set used for material ordering purposes.

6.0 PLACING ORDERS VIA TTDT

Key in the touch-tone access telephone number specified for your company. You will be answered by the APROMS digitized voice and hear the following statement:

"WELCOME TO THE AMERITECH REGIONAL ORDER ENTRY SYSTEM.
PLEASE ENTER YOUR AUTHORITY NUMBER."

Key the seven digits of your authority number followed by the pound (#) sign.

NOTE: If your authority number is not accepted, you will hear the following response:

"THAT IS AN UNACCEPTABLE AUTHORITY NUMBER. PLEASE
ENTER YOUR AUTHORITY NUMBER."

After ten unsuccessful attempts to enter a valid authority number, the system will respond as follows:

"YOUR ORDER HAS BEEN DELETED. THANK YOU FOR USING THE
AMERITECH REGIONAL ORDER ENTRY SYSTEM."

If this happens, make sure you are entering the proper number or are not making a keying error. If assistance is needed, please call your ASI Customer Service Desk.

Whether you are entering an authority number, MU, item number, PID, Bell location code or phrase code, you will be allowed ten attempts to enter valid data before being disconnected. The error counter is reset to zero once valid input is acceptable.

When your authority number is accepted, you **MAY** hear the following prompt:

"ENTER YOUR CUSTOMER ID."

This prompt will only occur if your particular authority number is duplicated within any of the other Ameritech operating companies. If there is no duplication, this prompt will be bypassed. If you receive this prompt, enter the appropriate one-digit customer ID number followed by the pound (#) sign. Listed below are the appropriate Customer ID codes by state:

1 = Illinois, 2 = Indiana, 3 = Michigan, 4 = Ohio, 5 = Wisconsin, 6 = ASI

CONFIDENTIAL

Subject to restrictions on first page.

6.0 PLACING ORDERS VIA TTDT (CONTINUED)

When your authority number and, if required, customer ID are accepted, you will hear the following prompt:

"DO YOU WANT TO PLACE AN ORDER? IF YES ENTER ONE, IF NO ENTER TWO."

If you are not placing an order and choose option two, you may perform the following functions by entering the appropriate key:

"TO OBTAIN AN ITEM'S PRICE, ENTER ONE."
"TO REVIEW AN EXISTING ORDER, ENTER TWO."
"TO LISTEN TO ANNOUNCEMENTS, ENTER SIX."
"TO EXIT AND RETURN TO THE ORDER ENTRY PROCESS, ENTER NINE."

OPTION 1

If you choose option one (i.e., Enter One), "TO OBTAIN AN ITEM'S PRICE," the system will prompt you as follows:

"ENTER AN ITEM NUMBER."

Key in the desired item number or PID and the system will respond with the item's price. After receiving the item's price, the system will again ask "ENTER AN ITEM NUMBER." Enter an additional item number if so desired. If no other item prices are required, key in a pound (#) sign. The system will again give you the options listed above (i.e., OBTAIN PRICE, REVIEW AN ORDER, LISTEN TO ANNOUNCEMENTS, or EXIT).

OPTION 2

If you choose option two (i.e., Enter Two), "TO REVIEW AN EXISTING ORDER," the system will prompt you as follows:

"ENTER A REQUISITION NUMBER."
"DO YOU WANT TO HEAR THE ITEM'S DESCRIPTION? ENTER ONE FOR YES, TWO FOR NO."

Once the requested information is entered, the system will respond with information regarding a previously placed order. The information provided will be in the following sequence: Line number, item number, item's description (if desired), quantity ordered, unit of measure, date entered, and item's status. After receiving this information, the system will again request for an additional requisition number. If no other requisition numbers are required, key in the pound (#) sign. The system will again give you the options listed above (i.e., OBTAIN PRICE, REVIEW AN ORDER, LISTEN TO ANNOUNCEMENTS, or EXIT).

CONFIDENTIAL

Subject to restrictions on first page.

6.0 PLACING ORDERS VIA TTDT (CONTINUED)

OPTION 3

If you choose option three (i.e., Enter Six), "TO LISTEN TO ANNOUNCEMENTS," the system will respond with any announcements that reside within the system. After receiving this information, the system will again give you the options listed above (i.e., OBTAIN PRICE, REVIEW AN ORDER, LISTEN TO ANNOUNCEMENTS, or EXIT).

OPTION 4

If you choose option four (i.e., Enter Nine), the system will respond:

"DO YOU WANT TO PLACE AN ORDER? IF YES ENTER ONE, IF NO ENTER TWO."

If you are placing an order, the next system prompt will be:

"PLEASE ENTER THE TWO DIGIT MATERIAL USAGE NUMBER."

Now, key a two-digit material usage (MU) number and the pound (#) sign. Example: 01# for MU 01, 25# for MU 25, etc. When an acceptable MU number is entered, you will hear the next requested prompt as follows:

"ENTER A REQUISITION NUMBER."

Key in the requisition number and a pound (#) sign, or key a pound (#) sign only. In either case, APROMS will generate a requisition number at the end of the order entry process that must be used for reference purposes. If you enter a requisition number, the number will be used as the "Customer Reference Number" on the stock shipping manifest. Please note the requisition number can be alpha-numeric. Please see Section 15.0 to obtain the alpha representation sequence. For example, customer requisition number A12345 would be entered in the following sequence: *2112345.

The next system prompt will be:

"DO YOU WANT TO HEAR THE ITEM DESCRIPTION? ENTER ONE FOR YES; TWO FOR NO."

Key 1# if you wish to hear the descriptions of the items you are ordering.
Key 2# if you DO NOT wish to hear the descriptions.

The next prompt will be for the first item number:

"ENTER AN ITEM NUMBER."

CONFIDENTIAL

6.0 PLACING ORDERS VIA TTDT (CONTINUED)

If you wish to use a Bell location code, enter the appropriate seven-digit code in response to the first item number prompt.

If you wish to use an order level phrase code, follow the instructions provided in Section 14.0.

Otherwise, key the first item number (either a seven-digit item number OR a nine-digit product identifier PID) and a pound (#) sign. For example: 1185041# or 400527016#.

If you had requested to hear the item descriptions, you will hear:

"THAT ITEM IS _____ (A description of the item)." If the item is not stocked by Ameritech Services, you will hear the message "THIS IS A NON-STOCK ITEM."

The next system prompt will be:

"ENTER A QUANTITY."

Key the quantity you want to order and a pound (#) sign. If you do not order in standard package multiples, the system will notify you and adjust your order accordingly. (If the standard package quantity for the item you order is six, and you order five, you will be told by the system your order quantity will be changed to six. If the quantity you enter exceeds the maximum allowable order quantity, you will be told you have exceeded the maximum quantity and your order quantity will be reduced to the maximum allowable order quantity.) After you enter your order quantity, the standard response is:

"YOU ORDERED _____ (Quantity, Unit)."

Example: "YOU ORDERED FIVE HUNDRED FEET."

After entering an item as explained above, continue entering items. After each item ordered, the system will continue to prompt you for an item number (i.e., "ENTER AN ITEM NUMBER.").

When the system again requests the next item number after you have entered the last item desired, there are two options available:

- 1) If you wish to place another order, key star, one, pound sign (*#), OR star, star, 6673, and pound sign (**6673#).
- 2) If you have finished ordering, key star, nine, and pound (#) sign (*9#) OR star, star, and pound (#) sign (**#).

In both cases, the system response will be:

"YOUR ORDER NUMBER IS _____ . USE THIS NUMBER WHEN REFERRING TO YOUR ORDER."

CONFIDENTIAL

Subject to restrictions on first page.

6.0 PLACING ORDERS VIA TTDT (CONTINUED)

If you had previously keyed *1# or **6673#, you will hear the prompt for an authority number to begin your next order. Otherwise the system will say:

"THANK YOU FOR USING THE AMERITECH REGIONAL ORDER ENTRY SYSTEM."

NOTE: IT IS IMPORTANT THAT YOU END EVERY ORDERING SESSION WITH *9# OR **# OR YOUR ORDER WILL NOT BE PROCESSED!

7.0 KEYING ERRORS - DELETE ENTRIES

If you want to delete an entry, simply key *3#. All information back to the previous pound (#) sign will be deleted. You will hear:

"THAT ENTRY HAS BEEN DELETED" OR "THERE ARE NO ENTRIES TO DELETE."

8.0 LAST PROMPT REPEATED

If you want the last prompt repeated, key *4#.

9.0 HELP

To obtain the HELP menu, key *5#.

10.0 ANNOUNCEMENTS

If you want to listen to available announcements, key *6#.

11.0 TRANSFER ORDER TO SERVICE DESK

If you want your order transferred to the Customer Service Center, key *0#. If you have entered at least one item, the requisition will be saved and you will be given the requisition number. You will then be furnished with the following prompts:

"YOUR CALL WILL BE TRANSFERRED. DO YOU WISH TO BE TRANSFERRED TO THE ORDERBOARD? ENTER A ONE THEN POUND (#) SIGN TO TRANSFER YOUR CALL. ENTER A TWO THEN POUND (#) SIGN TO CONTINUE YOUR ORDER."

If one and a pound (#) sign are entered, you will hear:

"YOU WILL BE TRANSFERRED TO THE CUSTOMER SERVICE DESK. PLEASE WAIT AND AN OPERATOR WILL BE RIGHT WITH YOU."

If you key #2, you will be returned to the prompt you heard just before you keyed in *0#.

CONFIDENTIAL

Subject to restrictions on first page.

12.0 ORDER CANCELING

If you want to cancel the entire order, key *7# or hang up.

13.0 COMPUTER VOICE RESPONSES

Voice responses or statements have been programmed into the system to assist you while placing TTDT orders. They are self-explanatory or tell what you must do to enter your order correctly. Some examples of such responses are listed below:

"THAT IS AN INVALID REQUISITION NUMBER."

The requisition number you enter must conform to your state's defined requisition number length and range.

"THAT IS AN INVALID ITEM NUMBER."

This statement means you entered the wrong item number or product identifier (PID) and the system cannot accept it. You can check the number and re-enter it correctly or continue with the next item to be ordered. You will also hear this message if the Bell Location code or phrase code you enter is invalid or entered in the wrong sequence.

"THAT ITEM IS ON BACK-ORDER."

This statement is provided for your information. All back-orders are held and will be shipped when the items become available. Knowing in advance that an item is on back-order gives you the opportunity to make substitutions. The delete feature (*3#) described in Section 7.0 should be used to cancel a back-order if you do not want it held.

"YOU HAVE EXCEEDED THE MAXIMUM ITEM QUANTITY ALLOWED FOR THAT ITEM. YOU ORDERED _____. THE QUANTITY WILL BE CHANGED TO _____."

If you exceed quantity limitations on your authority number or on the item itself, you will hear this statement. The system will reduce the quantity ordered to a predetermined maximum amount.

"THAT IS AN INCORRECT MATERIAL USAGE NUMBER."

When an MU is requested by the system, the user's response must be a valid MU on his/her authority card. Questions regarding MU assignments may be directed to the appropriate staff.

"YOU ARE NOT AUTHORIZED TO ORDER THAT ITEM."

Data in the item record is not compatible with the material usage codes in your authority record. Call the Customer Service Desk if the item you wish to order is necessary for your work.

CONFIDENTIAL

Subject to restrictions on first page.

13.0 COMPUTER VOICE RESPONSES (CONTINUED)

"THAT BELL LOCATION IS OK."

When you enter a valid Bell Location Code following the prompt for the FIRST item, you will hear the above response. If you attempt to enter a Bell Location Code after the first item has been ordered, the system will respond with the message "THAT IS AN INVALID ITEM NUMBER."

"YOU ARE NOT AUTHORIZED TO USE A BELL LOCATION CODE."

If you hear the above referenced statement, your authority number does not allow the changing of shipping addresses. Please contact your Customer Service Desk for assistance.

"INVALID QUANTITY. PLEASE ENTER A QUANTITY."

This response is given if a zero quantity is entered or the tones cannot be processed by the system. Enter the quantity again.

"LAST ENTRY DELETED."

You will hear the above referenced statement after using the delete feature (*3#) that is explained in Section 7.0. This statement verifies that the item actually has been deleted.

"DO NOT EXCEED THIRTY SECONDS BETWEEN ENTRIES."

If you do not respond to a system generated prompt within approximately 30 seconds, the system will respond with the above referenced prompt. If after hearing this prompt you do not respond with an entry within approximately 40 seconds, the system will end the transaction, the order will NOT be processed, and the system will respond with the following statement:

"THANK YOU FOR USING THE AMERITECH REGIONAL ORDER ENTRY SYSTEM."

CONFIDENTIAL

Subject to restrictions on first page.

14.0 REGIONAL STANDARD INSTRUCTIONAL PHRASES

Phrase codes may be transmitted via Touch-tone telephones and will result in instructions being printed on the manifest.

Be sure to register each phrase with a pound (#) sign. Please refer to the **REGIONAL STANDARD INSTRUCTIONAL PHRASES** listed below.

Phrase codes are divided into the following two categories:

- A Requisition Phrase that applies to the entire order and must precede the first item of the order (example: Street Address, Room or Floor, Continuing Property or Motor Vehicle Number, Do Not Sub Order, etc.)
- An Item Phrase which applies to a specific item (example: Coil Size) within the order **MUST** follow the affected item. The "Do not sub next item" phrase must precede the item. All other item phrase codes would normally be entered after the item affected.

The following numerical phrases may be transmitted via Touch-tone telephones and will result in system printed instructions on the Customer Manifest. **The notation (R) after the phrase description indicates the phrase is a requisition phrase and the notation (I) after the phrase description indicates an item phrase.**

<u>PHRASE DESCRIPTION</u>	<u>ITEM (PHRASE) NUMBER</u>
Ship in One Length (I)	2020149
Save All Copies (R)	2020198
Rush Request One Day Interval	2020313
Cancel All Back-orders (R)	2022012
Reel Type Reel Number (I)	2022236
Audit Number (I)	2022244
Environment Code (R)	2023804
The Continued Property Record Is (R)	2023820
Geographic Location Override (R)	2023861
Do Not Sub The Next Item (I)	3023978
Ship on 310 Reel (I)	2023986
Order By APROMS Touchtone (R)	2024000
Ship in 500 Ft. Coils (I)	2024067
Ship in 300 Ft. Coils (I)	2024018
Ship in 250 Ft. Coils (I)	2024026
Ship in 200 Ft. Coils (I)	2024091
Ship in 150 Ft. Coils (I)	2024034
Ship in 100 Ft. Coils (I)	2024042
Ship in 50 Ft. Coils (I)	2024059
Confirming for Billing Only (R)	2024083
Date Wanted (R/I)	2024109
Do Not Sub This Requisition (R)	2024117
Room Number (R)	2024141
Floor Number (R)	2024158

15.0 ALPHA REPRESENTATION USING THE TOUCH-TONE KEYPAD

Listed below are the numeric touch-tone keypad sequences needed to represent alpha characters. PLEASE NOTE THAT EACH ALPHA CHARACTER MUST BE PRECEDED BY THE STAR (*) SIGN! Example: A = *21, B = *22, X = *92, etc.

<u>Letter</u>	<u>Key Sequence</u>	<u>Letter</u>	<u>Key Sequence</u>
A	*21	N	*62
B	*22	O	*63
C	*23	P	*71
D	*31	Q	*72
E	*32	R	*73
F	*33	S	*74
G	*41	T	*81
H	*42	U	*82
I	*43	V	*83
J	*51	W	*91
K	*52	X	*92
L	*53	Y	*93
M	*61	Z	*94

16.0 CUSTOMER SERVICE CENTERS

If you have any questions, comments and/or require assistance regarding the order entry process, please contact the Customer Service Center designated for your state. Listed below are the Customer Service Center telephone numbers:

ILLINOIS	(312) 558-3594
INDIANA	(317) 265-3411
MICHIGAN	(313) 523-0800
OHIO	(216) 441-7730
WISCONSIN	(414) 523-7900
AMERITECH SERVICES	(708) 248-2535

 Replaces Adapter 153 RM 1. Used to connect 6 conductor modular plug to cable plug. DISCONTINUE, ORDER NON STOCK UPON STOCK DEPLETION

101726362 ADAPTER 153C
 1168971 1 EA IL IN MI OH WI
 18 18 18 18 18
 These adapters are arranged for 2 line pickup and lead control, BSP 461-200-120.

101726370 ADAPTER 153D
 1169938 1 EA IL IN MI OH WI
 18 18 18 18 18
 Used to plug customer provided modems into 50 pin interface. Used with 2-line pick-up and A lead control, BSP 461-200-102.

102605136 ADAPTER 258A
 N EA 1 2 1
 Provides six 8 position modular jacks wired to a 50 contact plug, used to adapt a 25pr connector cable, or 66 type block. For DCTS installation. NOW AVAILABLE THROUGH TOUCH-TONE ORDER ENTRY.

102631413 ADAPTER 259A
 1120063 1 EA IL IN MI OH WI
 18 18 18 18 18
 An eight position modular jack from an electronic key telephone set to the first four pairs of a 25 pair amphenol connector, BSP 461-200-102.

102655560 ADAPTER 259B
 1120089 1 EA IL IN MI OH WI
 18 18 18 18 18
 An eight position modular jack wired to the second four pairs of a 25 pair amphenol connector, BSP 461-200-102.

103339396 ADAPTER 259C
 N EA 1 3 1
 Used to connect met sets to existing 25 pair connector cables for inservice conversion. BSP 461-200-102.

280071515 ADAPTER 45124-1A
 N EA 1 2 1
 Twenty-five pair cable is hooked into the side similar to a RJ21X and there are 12 four conductor modular type jacks mounted in the adapter.

102430436 BLOCK CONNECTING 625C 246 50								
1187799	1	EA	IL IN MI OH WI 18 18 18 18 18					
Used to convert existing 42A blocks to modular, BSP 503-100-100.								
105183370 BLOCK CONNECTING 625D 246 50								
1223511	1	EA	IL IN MI OH WI 18 18 18 18 18					
A duplex flush 6 conductor modular jack e/w window designation strip. Arranged to mount in a single outlet box. Used in hospital rooms requiring two lines, BSP 461-610-100.								
103335998 BLOCK CONNECTING 625D6 50								
N		EA	1	3	1			
102430451 BLOCK CONNECTING 625F 50								
1214684	1	EA	IL IN MI OH WI 18 18 18 18 18					
Intended for installations in conversion to modularity requiring flush type jacks or for replacement of a 548AJ jack, BSP 503-100-100.								
103552857 BLOCK CONNECTING 625S6 246 50								
1230458	1	EA	IL IN MI OH WI 18 18 18 18 18					
Consists of a terminal strip 625A6 Jack and a plastic cover, provides bridged connection of tip and ring for up to three lines to the registered equipment, BSP 461-610-100.								
300077245 BLOCK CONNECTING 625SA								
6513283	1	EA	IL IN MI OH WI 08 08					
E/W Maintenance Terminating Unit containing solid state electronic module to be used for testing COCOT lines.								
103627188 BLOCK CONNECTING 625SA 4 50								
1940577	1	EA	IL IN MI OH WI 18					
This is a fully enclosed 4 conductor (RJ11C) ivory connecting block with a swinger door.								
103323663 BLOCK CONNECTING 625TD 50								
1148258	1	EA	IL IN MI OH WI 18 18 18 18					
Standard network interface between customer premise wiring and telephone company network facilities, BSP 461-400-150.

PRODUCT IDENTIFIER		DESCRIPTION						
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A	C	

401206180 CAP TERMINAL CK21168 L1
 8169086 1 PK IL IN MI OH WI
 18 18 18 18 18
 A red polyvinyl terminal insulator used to insulate, protect & designate special service pairs on a 303 connector cross connect field. Package of 100.

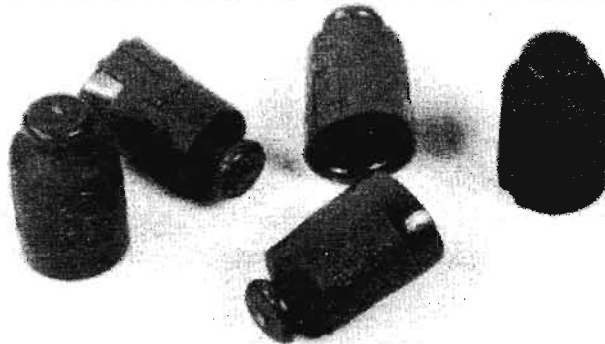

8169086

401851514 CAP TERMINAL CLIP B CA08095
 2810424 1 PK IL IN MI OH WI
 18 18 18 18 18
 Package of 24. Designed to protect one row of terminals on the 66 type connecting block, BSP 460-110-100.

280028184 CAP TERMINAL TLC B BLACK
 1929307 1 EA IL IN MI OH WI
 08 08 08 08 08
 A chemical filled sealing cap designed to protect 9A1 and RPT type terminal lugs against corrosion. Package of 10.

280028218 CAP TERMINAL TLC B RED
 1930958 1 EA IL IN MI OH WI
 08 08 08 08 08
 A chemical filled sealing cap designed to protect 9A1 and RPT type terminal lugs against corrosion when used for special circuits. Package of 10.

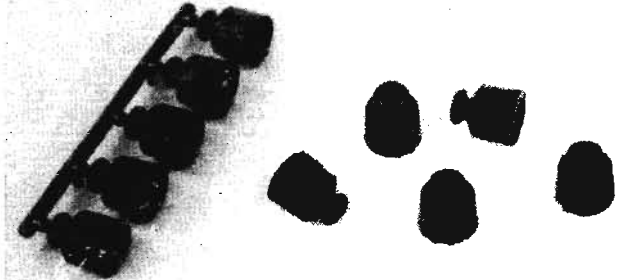

1930958

260327804 CAP TERMINAL TLC B XB BLACK
 N EA 5000 6 5000
 Used for cross-connect box applications, package of 50.

260327788 CAP TERMINAL TLC B XB RED
 N EA 5000 6 5000
 Used for cross-connect box applications, package of 50.

CASE LOAD COIL

300037744 CASE LOAD COIL 25 662 W/20FT STUB
 5109835 1 EA
 A build out case for use in building out the mutual capacitance and resistance of cable to correct loading section irregularities.

300037751 CASE LOAD COIL 50 662 W/20FT STUB
 5109850 1 EA

IL	IN	MI	OH	WI
15	15	15	15	15

 A build out case for use in building out the mutual capacitance and resistance of cable to correct loading section irregularities.

300037769 CASE LOAD COIL 100 662 W/20FT STUB
 5109876 1 EA

IL	IN	MI	OH	WI
15	15	15	15	15

 A build out case for use in building out the mutual capacitance and resistance of cable to correct loading section irregularities.

CASE LOAD COIL

PRODUCT IDENTIFIER		DESCRIPTION						
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A	C	

280022922 CASE LOAD COIL 450 662 W/20FT STUB
 1945246 1 EA IL IN MI OH WI
 15 15 15 15 15
 A build out case for use in building out the mutual capacitance and resistance of cable to correct loading section irregularities.

300037793 CASE LOAD COIL 600 662 W/20FT STUB
 5109793 1 EA IL IN MI OH WI
 15 15 15 15 15
 A build out case for use in building out the mutual capacitance and resistance of cable to correct loading section irregularities.

260325634 CASE LOAD COIL 750 662 W/20FT STUB
 1945238 1 EA IL IN MI OH WI
 15 15 15 15 15
 A build out case for use in building out the mutual capacitance and resistance of cable to correct loading section irregularities.

300037801 CASE LOAD COIL 900 662 W/20FT STUB
 5109819 1 EA IL IN MI OH WI
 15 15 15 15 15
 A build out case for use in building out the mutual capacitance and resistance of cable to correct loading section irregularities.

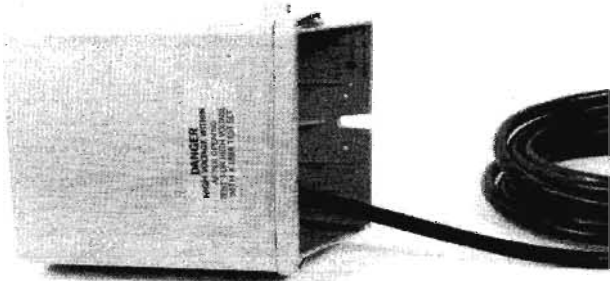

300085347 CASE LOAD COIL LC110
 N EA 1 3 1
 For volt-ohm meter 2806 and 2816. Marsh.

CASE REPEATER

260323696 CASE REPEATER 475J
 1943969 1 EA

260342936 CASE REPEATER 475K
 1949941 1 EA IL IN MI OH WI
 08 08

104391297 CASE REPEATER 809A3
 1935346 1 EA IL IN MI OH WI
 08 08 08 08 08
 Updated version of 809A2 case designed for pole mount installation. It has a 25FT, 52PR ASP sheath filled stub. Designed for digital carrier system with T1 carrier line repeaters.

1935346

104391305 CASE REPEATER 809B3
 1935338 1 EA IL IN MI OH WI
 08 08 08 08 08
 Updated version of 809B2 Case designed as a pedestal mounted case. Same stubs and design use as the 809A3 Case.

PRODUCT IDENTIFIER		DESCRIPTION						
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A	C	

260323670 CASE REPEATER 818A1
 1975714 1 EA IL IN MI OH WI
 09
 Consists of a #81A1-1H Repeater case base and a #88A1 repeater case housing. Equipped with a 30FT, 108 PR guard screened plastic stub cable.

103246666 CASE REPEATER 818A2C
 N EA 1 4 1
 Consists of #818A2C repeater case housing and #81A1-1H repeater case base. BSP 640-525-307.

103064077 CASE REPEATER 818C1C
 N EA 1 4 1
 Consists of #81A1-2H repeater case base and #88A1C repeater case housing.

103064085 CASE REPEATER 819A1
 1214015 1 EA IL IN MI OH WI
 08 08 08 08
 Consists of #88A1-1H repeater case base and #89A1C repeater case housing. Has air core stub to be used in pressurized cable. Requires air source and alarm.

103064093 CASE REPEATER 819A1C
 N EA 1 4 1
 BSP 640-525-307.

260323688 CASE REPEATER 819A2
 1943977 1 EA IL IN MI OH WI
 08 08 08 08
 Same as #819A1, but with two #306M connectors added in the switch positions to accommodate two B protectors.

103246674 CASE REPEATER 819A2C PROT
 N EA 1 4 1

KIT							
842366940		KIT 700					
N		EA	1	9	1		
Kit of parts consisting of ground strap and 2 screws for 142 protector, outside plant. NOW AVAILABLE THROUGH TOUCH-TONE ORDER ENTRY.							
103808416		KIT 1032A TOOL					
N		EA	1	4	1		
Consists of tools and expendable supplies for field assembly of approx. 100 MM fiber optic connectors.							
104186150		KIT 1040A					
N		EA	1	4	1		
Designed for use with the #1033A, 1034A, and 1036A lightguide connectors. Provides bare essentials for mechanical splicing.							
260447719		KIT 12PR DROP BLOCK					
N							
For Reliable self-strip cabinets.

PRESSURIZATION AIR CABLE EQUIPMENT

280050287 ASSEMBLY CABLE 10FT 0500-00140							
N		EA	1	2	2		
10FT cable assy accessory for the Model 500 Series Flow Transducers that is used in central offices only. Cable assy transmits power to read signals from the flow transducer to the monitoring system.							
280050279 ASSEMBLY CABLE 15FT 0500-00138							
N		EA	1	2	2		
15FT cable assembly for the Model 500 Series Flow Transducers. The cable assembly transmits power to read signals from the flow transducer to the monitoring system.							
280050543 ASSEMBLY COIL CORD 1805-00219							
N		EA	1	2	2		
6FT coil cord with a phone plug on one end for connecting the Model 1805 Multisonic Translator/Detector & a screw-down audio plug on the other end for connecting to the duct probe.							
260360987 ATTACHMENT BRAKE 1802-00488							
N		EA	1	2	1		
Functions as a brake by resisting the forward travel of the Model 1802 Mini Duct Probe rod when the rod is released.							
401546734 BOX JUNCTION C CA08746							
2630301	1	EA	IL 08 IN 08 MI 08 OH 08 WI 08				
A metallic housing used as an interface point between up to five C pressure housings and tel pairs in a cable splice. Term facilities for up to 25 F pressure transducers. For 88 type punch down block.							

PRODUCT IDENTIFIER		DESCRIPTION				
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C
260402987 BOX JUNCTION MODEL 230A						
N		EA	1	2	1	
A metallic housing used as an interface pt between up to 5 C pressure transducer hsnsgs & tel pairs in a cable splice. Term facilities for up to 25 F pressure transducers. Wire wrap term block. 230 Ver						
260402995 BOX JUNCTION UNDERGROUND 230AP						
N		EA	1		1	
Used in cable pressure systems, plugged with 2 SCFH controlled leak, same equipment as 230A.						
260403001 BOX JUNCTION UNDERGROUND 230C						
N		EA	1		1	
Used in cable pressure systems, 25 pair wire wrap terminal, 231 extensionarm.						
260403019 BOX JUNCTION UNDERGROUND 230CP						
N		EA	1		1	
Used in cable pressure systems, plugged with 2 SCFH controlled leak, same equipment as 230C.						
280050600 BRACKET WALL 7IN 0290-27211						
N		SE	1	2	1	
Set of two 7IN Wall Mounting Brackets for Mark Products' central office panels.						
280050618 BRACKET WALL 10IN 0291-27223						
N		EA	1	2	1	
Set of two 10IN Wall Mounting Brackets for Mark Products' central office panels.						
280050311 BRACKET WALL MOUNT FLOW TRANSDUCER						
N		EA	1	2	2	
Model 0500-21801 is a stainless steel, wall mounting bracket for the Model 500 or 550 Series Flow Transducers.						
280050469 CABLE AUDIO PLUG 1801-00197						
N		EA	1	2	2	
Connects the Model 1801-00195 Connector Box to the Hewlett Packard Model 4905A Ultrasonic Detector.						
280050527 CABLE PHONE PLUG 1801-00211						
N		EA	1	2	2	
30FT interconnect cable phone plug that connects the Model 1801 Duct Probe to the Model 1805 Multisonic Translator/Detector.						
997537006 CAP VALVE PRESSURE TEST CA06914M						
1124784	1	PK	IL 08	IN 08	MI 08	OH 08 WI 08
A hexagonal brass cap designed for installation and removal by means of a wrench.						
996147419 CAP VALVE PRESSURE TEST CA06914R						
1124800	1	PK	IL 08	IN 08	MI 08	OH 08 WI 08
Knurled dome brass cap with rubber jacket designed for installation and removal by means of the fingers.						

PRODUCT IDENTIFIER		DESCRIPTION				
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C
400486916 CLAMP SEALING B 1 1/16IN						
1128884	1	EA	IL 08	IN 08	MI 08	OH 08 WI 08
For use over wrapped joints in splicing plastic sheathed cables to be maintained under air pressure. Slow action. Screw must be turned to advance the band through the housing. Stainless steel.						
400486940 CLAMP SEALING C 1 3/4 INCH						
N		EA	10		4	500
CA08346. For use over wrapped joints in splicing plastic sheathed cables to be maintained under air pressure. Quick lock/quick release of the band. Stainless steel.						
900290669 CLAMP SEALING C 2 1/2 INCH						
N		EA	500		4	500
For use over wrapped joints in splicing plastic sheathed cables to be maintained under air pressure. Quick lock/quick release of the band. Stainless steel.						
400486932 CLAMP SEALING C 2 INCH						
1128926	1	EA	IL 08	IN 08	MI 08	OH 08 WI 08
For use over wrapped joints in splicing plastic sheathed cables to be maintained under air pressure. Quick lock/quick release of the band. Stainless steel. BSP-633-300-204.						
400411195 CLAMP SEALING C 4 INCH						
1128942	1	EA	IL 08	IN 08	MI 08	OH 08 WI 08
For use over wrapped joints in splicing plastic sheathed cables to be maintained under air pressure. Quick lock/quick release of the band. Stainless steel. CA08346.						
260322144 CLAMP SEALING C 7 INCH						
N		EA	150		4	600
For use over wrapped joints in splicing plastic sheathed cables to be maintained under air pressure. Quick lock/quick release of the band. Stainless steel.						
002055002 CONNECTOR 3131 AMP-FIT 561274 1						
4205963	1	EA	IL 08	IN 08	MI 08	OH 08 WI 08
Has a 5/16IN diameter pulling eye. This fitting is used as an aid in pulling pipe through conduit, and, in addition, can serve as a pipe plug.						
002055028 CONNECTOR 3131 AMP-FIT COUPLING 332843						
4205922	1	EA	IL 08	IN 08	MI 08	OH 08 WI 08
Used for the permanent joining of two sections of CA-3131 Feeder Pipe.						
002055036 CONNECTOR 3131 AMP-FIT END PLUG 561683 1						
4206029	1	EA	IL 08	IN 08	MI 08	OH 08 WI 08
Has a pre-assembled F Pressure Testing Valve to provide a pressure testing point.

PRODUCT IDENTIFIER		DESCRIPTION						
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. STOCK	PKG. AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C	
280008087 CONNECTOR 3131 AMP-FIT PANEL 561411-1								
1939041	1	EA	IL	IN MI OH WI	08 08			
Has a 1/4IN male NPT thread at one end and is used as a panel connector.								
002055440 CONNECTOR 3131 AMP-FIT TEE 561515-1								
4206086	1	EA	IL	IN MI OH WI	08 08 08 08			
Used for tapping a CA-3131 Feeder Pipe. Three crimping rings, required for installation, are supplied with the fitting.								
900402801 CONNECTOR 3131 AMP-FIT TYPE H 332824								
2677880	1	EA	IL	IN MI OH WI	08 08 08 08 08			
Used for the permanent joining of two sections of CA-3131 Feeder Pipe. Has a side exit port with a 1/4IN NPT thread with ground post.								
900402819 CONNECTOR 3131 AMP-FIT TYPE J 332841								
2677948	1	EA	IL	IN MI OH WI	08 08 08 08 08			
Has an exit port on one end with a 1/4IN NPT thread. It also has a side exit port with a 1/8IN NPT thread for an F Pressure Testing Valve with ground post.								
900402827 CONNECTOR 3131 AMP-FIT TYPE K 332823								
2677922	1	EA	IL	IN MI OH WI	08 08 08 08			
Used for the permanent joining of two sections of CA-3131 Feeder Pipe. Has side exit ports with 1/8IN NPT threads for F Pressure Testing Valves with ground post.								
900402835 CONNECTOR 3131 AMP-FIT TYPE L 332842								
2677906	1	EA	IL	IN MI OH WI	08 08 08 08 08			
Has an end port with a 1/4IN male NPT thread and a side exit port with 1/8IN NPT for an F Pressure Testing Valve with ground post.								
300036720 CONNECTOR 3131 METAL COUPLING								
1226779	5	EA	IL	IN MI OH WI	08 08			
Provides a connection between two pieces of air pipe. Includes 1/8IN NPT port for a pressure testing valve or a connection to feed or monitor the air pipe pressure. Includes bonding clip.								
300036738 CONNECTOR 3131 METAL COUPLING/TEE								
1117077	1	EA	IL	IN MI OH WI	08			
Provides a connection between two pieces of air pipe. Includes 1/4IN NPT outlet. Includes bonding clip.								
300036712 CONNECTOR 3131 METAL END WITH PLUG								
1111195	5	EA	IL	IN MI OH WI	08			
Provides a terminating point for air pipe or a means of connecting any 1/4IN male pipe thread to air pipe. Includes 1/8IN NPT outlet for pressure test valve, and includes bonding clip.								

PRODUCT IDENTIFIER		DESCRIPTION						
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. STOCK	PKG. AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C	
300080066 CONNECTOR 3131 METAL TEE JUNCTION								
5124933	1	EA	IL	IN MI OH WI	08			
The T-185B with bonding clip provides for the connection of three 3131 air pipes. Designed to permit equalization of air flow from one pipe to another. Includes tee & three shut-off assemblies.								
280050667 CONNECTOR STRIP 5022-27241								
N		EA	1		2	5		
Connects two Model 5330 Modular Panels together on a rack.								
401804844 CONTACTOR PRESSURE R CA08782								
4204990	1	EA	IL	IN MI OH WI	08 08 08 08 08			
Plugs into T1-T1/OS & T1C carrier apparatus cases and monitors gas pressure on associated pressurized cable. Signals a drop in cable pressure below a preset 5 PSI level by completing a loop circuit.								
402984223 CONTACTOR PRESSURE W CA09017								
N		EA	1		3	1		
Plugs into the T1-T1/OS and T1C/T1D carrier apparatus cases and monitors gas pressure and humidity on above-ground static pressurized apparatus cases. Signals a drop in pressure below 5 PSI, 65% hum..								
401733761 CONTRACTOR PRESSURE P CA08680								
N		EA	1		3	1		
260360904 CONTROLLER HELIUM FLOW 530								
N		EA	1		2	1		
Delivers a constant flow of helium into pressurized systems, eliminating helium waste. Used with Helium Detector.								
280050758 CONTROLLER PRESSURE MODEL 401								
N		EA	1		2	2		
Can be used to lower the pressure of an entire manifold system when the pressure available from the pipe is greater than required.								
280050451 CORD PATCH 1801-00196								
N		EA	1		2	4		
Connects the Mark Model 1801 Reel Hub to the Connector Box.								
260396726 COVER MODIFIED TRANSDUCER HOUSING								
N		KT	1		3	1		
6361-369 For mounting a flow transducer on a 5-bank or 10-bank C transducer housing. Kit includes cover, gasket, & 3/8IN tubing fitting. Also known as Kit Flange Plate Adapter.								
260338009 DETECTOR HELIUM 1820A 10 SECOND CYCLE								
N		EA	1		2	1 C		
Used to detect leaks in direct buried pressurized cables, underground ducted cables, & pressurized pipe systems. Includes carrying case & strap, complete probe assembly, and battery charger.								
280050501 DEVICE DISTANCE MEASURE 1801-00204								
N		EA	1		2	1		
Used with the Mark Duct Probe 1801. Functions both as a device for measuring distance in feet and as a brake to control uncoiling of the rod.								

PRODUCT IDENTIFIER							DESCRIPTION						
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C							
260301981	N	EA	1	6	1		ELBOW 45 DEGREE AMP-FIT 561402-1						
260301973	N	EA	1	6	1		ELBOW CRIMP SUB ASSEMBLY 561403-1						
280008095	N	EA	1	6	1		ELBOW SUB ASSEMBLY VALVE 561438-1						
260360995	N	EA	1	2	1		EQUIPMENT DISTANCE MEASURING 1802-00490. Use with the 1802 Mini Duct Probe. Reads out the footage of rod inserted into a duct for accurate distance measurement to the fault. It also functions as a brake.						
260384342	N	EA	1	1	1		FINDER FLOW 9.5 SCFH W/O CHECK VALVE Device installed on air pipe routes to provide a means for measuring air flow using a flow gauge. Model 3008.						
260384326	N	EA	1	1	1		FINDER FLOW 19 SCFH W/O CHECK VALVE Device installed on air pipe routes to provide a means for measuring air flow using a flow gauge. Model 3005. NOW AVAILABLE THROUGH TOUCH-TONE ORDER ENTRY.						
260384334	N	EA	1	1	1		FINDER FLOW 47.5 SCFH W/O CHECK VALVE Device installed on air pipe routes to provide a means for measuring air flow using a flow gauge. Model 3006. NOW AVAILABLE THROUGH TOUCH-TONE ORDER ENTRY.						
260384300	N	EA	1	1	1		FINDER FLOW 9.5 SCFH W/O CHECK VALVE Device installed on air pipe routes to provide a means for measuring air flow using a flow gauge. Model 3003. NOW AVAILABLE THROUGH TOUCH-TONE ORDER ENTRY.						
260396643	N	BX	1	1	1		FITTING 1/4 NPT X 3/8IN TUBING Used for flow finder installation on 3/8IN tubing. Model 3023. Box of 10. NOW AVAILABLE THROUGH TOUCH-TONE ORDER ENTRY.						
280007972	N	EA	1	6	1		FITTING 3/8 TUBE AMP-FIT COUPLING 561309-1. Coupling is used for joining two ends of a 3/8IN plastic tubing.						
280008004	N	EA	1	6	1		FITTING 3/8 TUBE AMP-FIT DEAD END 561308-1. Used to seal a section of 3/8IN plastic tubing.						
280008038	N	EA	1	6	1		FITTING 3/8 TUBE AMP-FIT DISCONNECT COUPLING 1/4 561312-1. Disconnect Coupling connects 3/8IN plastic tubing to any 1/4IN female NPT fitting. It also features a knurled, captive nut for convenient disconnection.						

PRODUCT IDENTIFIER							DESCRIPTION						
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C							
280008020	N	EA	1	6	1		FITTING 3/8 TUBE AMP-FIT DISCONNECT COUPLING 1/8 561310-1. Disconnect Coupling connects 3/8IN plastic tubing to any 1/8IN female NPT fitting. This coupling also features a knurled, captive nut for convenient disconnection.						
280008053	N	EA	1	6	1		FITTING 3/8 TUBE AMP-FIT ELBOW 561318-1. Connects two ends of 3/8IN plastic tubing through a 90-degree elbow.						
280008046	N	EA	1	6	1		FITTING 3/8 TUBE AMP-FIT EL/COUPLING 561314-1. Disconnect Elbow connects 3/8IN plastic tubing to any 1/8IN female NPT fitting. It provides a 90-degree elbow, with a knurled, captive nut for convenient disconnection.						
280007980	N	EA	1	6	1		FITTING 3/8 TUBE AMP-FIT TEE 561304-1 Used to tap into a 3/8IN plastic tubing.						
280008152	N	EA	1	6	1		FITTING 3/8 TUBE AMP-FIT TO 3131 AIRPIPE 561720-1. Transition fitting is used to connect a section of CA-3131 Feeder Pipe to a section of 3/8IN plastic tubing.						
401331392	1156869	1	PK	IL 08	IN 08	MI 08	OH 08	WI 08					
CA08347B. Fitting used to connect 3/8IN tubing to 1/8IN NPT port.													
401331327	1156729	1	BX	IL 08	IN 08	MI 08	OH 08	WI 08					
CA08347. Fitting used to connect 3/8IN tubing to 1/8IN NPT port.													
401331335	1142596	1	BX	IL 08	IN 08	MI 08	OH 08	WI 08					
CA08347. Fitting used to connect three pieces of 3/8IN tubing.													
401332887	1156745	1	PK	IL 08	IN 08	MI 08	OH 08	WI 08					
CA08347. Fitting used to connect two pieces of 3/8IN tubing.													
401541230	N	PK	1	2	10		FITTING B STUB CABLE CA08756 For use in connecting stub cable between pressure transducer housing & junction boxes. 1/8IN NPT thread at one end. Furnished with C transducer housing.						
260428925	N	EA	1	1	1		FITTING NPT ADAPTER 1/2 F X 3/8 M						
260428909	N	EA	1	1	1		FITTING NPT ADAPTER 1/4 F X 1/4 M						
260428891	N	EA	1	1	1		FITTING NPT ADAPTER 1/4 F X 1/8 M

FLANGE PRESSURE C LEAD CABLE						
1146977	1	PK	IL IN MI OH WI 08 08 08 08 08			
Used to make pressure connections for testing pressure or injecting air into lead sheath cable under 100PR. Flange is tinned for soldering to lead sheath or sleeves. Package of 25.						

PRODUCT IDENTIFIER		DESCRIPTION				
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C
280396551		EA	IL IN MI OH WI 08 08 08 08			
FLANGE PRESSURE CABLE						
1967695		EA	IL IN MI OH WI 08 08 08 08			
Replaces F pressure flange and G pressure flange. Used to make pressure connections for testing pressure or injecting air into 100PR or larger cable. Molded-in insert with 9/16 hex and 1/8 NPT thread.						
280050675		EA	1	2	1	
FLOWRATER PORTABLE 526						
N		EA	1	2	1	
Visual gauge for measuring the flow of air & helium into cable plant. 2 scales measure air flow from 0-4 SCFH & 2-21 SCFH, & helium flow from 0-8 SCFH & 5-44 SCFH. NOW AVAILABLE THRU TOUCH-TONE ORDER.						
280050691		EA	1	2	1	
FLOWRATER PORTABLE 535						
N		EA	1	2	1	
Visual gauge for measuring air flow in cable plants. Scale measures air flow from 0-100 SCFH.						
260431929		EA	1	2	1	
GASKET JUNCTION BOX C						
N		EA	1	2	1	
Rubber gasket used as a replacement O-ring for the 'C' junction box.						
280093394		EA	1	2	18	
GASKET U0230-50803						
N		EA	1	2	18	
4 X 5 1/2IN rubber gasket used as a Junction Box replacement part. The Model 0230-50803 Gasket is used with Model 230 Junction Boxes that do not have captive screws.						
400146171		EA	IL IN MI OH WI 12 12 12 12			E
GAUGE B PRESSURE CA07470						
1179507	1	EA	IL IN MI OH WI 12 12 12 12			E
Used in cases where approximate pressure measurements are desired. Consists of 2IN diameter dial, 0-30 PSI, and snap-on air chuck.						
						
1179507						
260361225		EA	1	2	1	
GAUGE C DIGITAL PRESSURE 4300						
N		EA	1	2	1	
Solid state, hand-held device with a digital display designed for easy reading of pneumatic pressures from -14.70 to +19.99 PSIG.

PRESSURIZATION AIR CABLE EQUIPMENT

PRODUCT IDENTIFIER DESCRIPTION

ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C
-------------	------------	-----------	-----------------------------------	-----------	-----------	-----

400146189 GAUGE C PRESSURE ANALOG CA07717

1179523	1	EA	IL IN MI OH WI			E
			12 12 12 12 12			

sed to measure pressure in pressurized plant. Measures in tenths of a pound, from 0 to 12 PSIG.

1179523

260384359 GAUGE FLOW FINDER MODEL 3100

N		EA	1	1	1	
---	--	----	---	---	---	--

Air flow measuring device used in conjunction with flow finders. Measures the difference in air pressure and converts this value to an air flow rate. For use with any range flow finder.

260331921 HEADSET FOR MARK 1805 PROBE

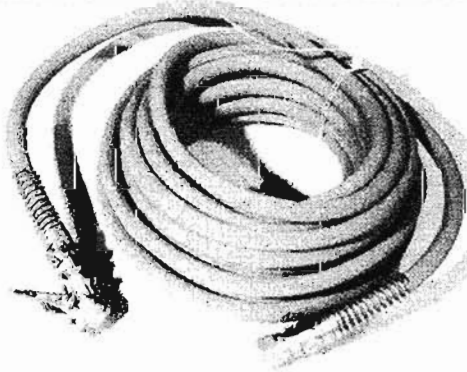

N		EA	1	2	1	
---	--	----	---	---	---	--

Multisonic Translator/Detector. It comes standard with the Model 1805 Multisonic Translator/Detector.

400150520 HOSE PRESSURE B 30FT CA07676

1184069	1	EA	IL IN MI OH WI			E
			12 12 12 12 12			

One end has a spring guard coupling for connection to standard types of nitrogen regulators. The other end has a spring guard coupling & snap-on air chuck for connection to a pressure testing valve.

1184069

260429998 HOSE TWIN SANTOPRENE 3031

N		BX	1	3	1	1
---	--	----	---	---	---	---

1/8 inch double air tubing used to connect a Flow Finder to a High Valve Assembly. 50FT length.

300077773 HOUSING TRANSDUCER C 10 CAVITY W/25PR

N		EA	1	3	1	
---	--	----	---	---	---	--

Metallic housing which can accommodate from 1 to 5 F Pressure Transducers in individual air-tight cavities. Equipped with 15FT, 25PR, 22-gauge single sheath plastic stub cable, talk term & spare leads.

300077765 HOUSING TRANSDUCER C 5 CAVITY W/25PR

1929471	1	EA	IL IN MI OH WI			
			04 04			

Metallic housing which can accommodate from 1 to 10 F Pressure Transducers in individual air-tight cavities. Equipped with 15FT, 25PR, 22-gauge single sheath plastic stub cable, talk term & spare leads.

401601851 HOUSING TRANSDUCER C WITH 6PR STUB

2631846	1	EA	IL IN MI OH WI			
			08 08 08 08 08			

CA08773. Metallic housing to accommodate one to five F Pressure Transducers in individual air-tight cavities. The housing is equipped with a 15 foot, 6 pair, 22 gauge single sheath plastic stub cable.

260442348 HYGROMETER PORTABLE BATTERY-OPERATED

N						
---	--	--	--	--	--	--

Humidity meter used to test relative humidity levels in pressurized cable. Includes sensor & carrying case.

280050683 INDICATOR FLOW DIRECTION

N		EA	1	2	1	
---	--	----	---	---	---	--

Attaches to two pressure testing valves. Used to indicate the direction of air flow in pressurized cables. NOW AVAILABLE THROUGH TOUCH-TONE ORDER ENTRY.

280054107 INTERROGATOR FLOW TD 245

N		EA	1	2	1	
---	--	----	---	---	---	--

For on-line monitoring of Mark Powered 500 Series Flow Transducers without violating the integrity of a pressurized cable plant, providing for voltage, current, and resistance readings.

280396718 KIT 1291 AIR DRYER HOOK-UP

N		KT	1	3	1	
---	--	----	---	---	---	--

With one 3/4IN Close Nipple, one 3/4IN Brass Ball Valve, two 3/4IN Nylon Hose Clamps, two 3/4IN Male Hose Adapters, one 2 X 3/4IN Reducing Bushing, and one 3/4IN X 10FT Tubing.

260396692 KIT 1293 AIR DRYER HOOK-UP EMERGENCY

N		KT	1	3	1	
---	--	----	---	---	---	--

With one 2 X 3/4IN Reducing Bushing, one Female Coupler with Male Threads, one Male Air Fitting w/Hose Shank Adapter, one 3/4IN Adapter, two 3/4IN Clamps, and 3/4IN X 10FT Tubing.

280008111 KIT CONNECTOR 3131 AMP-FIT WITH TOOL

N		EA	1	4	1	
---	--	----	---	---	---	--

Includes assortment of AMP-FIT 3131 pipe connectors and hand tool 69992.

280008061 KIT FITTING 3/8 AMP-FIT WITH TOOL

N		EA	1	6	1	
---	--	----	---	---	---	--

Contains assortment of AMP-FIT 3/8IN tubing fittings and hand tool 68317-1.

280050295 KIT MOUNTING 500 SERIES TRANSDUCER

N		EA	1	2	4	
---	--	----	---	---	---	--

An ADDITIONAL mounting kit for the Model 500 Series Flow Transducers. Mounting kits are supplied with and included in the price of the transducer.

280050329 KIT MOUNTING 550 SERIES TRANSDUCER

N		EA	1	2	5	
---	--	----	---	---	---	--

An ADDITIONAL mounting kit for the Model 550 Series Flow Transducers. Mounting kits are supplied and included in the price of the transducer.

280050535 KIT ROD ADAPTER 1801-00212

N		EA	1	2	2	
---	--	----	---	---	---	--

Rod end adapter repair kit for the Model 1801 and 1802 Duct Probes.

280050519 KIT ROD REPAIR 1801-00206

N		EA	1	2	1	
---	--	----	---	---	---	--

Used to repair the Model 1801 or 1802 duct rod.

260396650 MANIFOLD 2IN PVC 1 RACK

N		EA	1	3	1	
---	--	----	---	---	---	--

260396668 MANIFOLD 2IN PVC 2 RACK DUNLAP

N		EA	1	3	1	
---	--	----	---	---	---	--

260396676 MANIFOLD 2IN PVC 3 RACK DUNLAP

N		EA	1	3	1	
---	--	----	---	---	---	--

260396684 MANIFOLD 2IN PVC 4 RACK DUNLAP

N		EA	1	3	1	
---	--	----	---	---	---	--

401001482 MANIFOLD 3131 5-PORT

1200600	1	EA	IL	IN	MI	OH	WI
			08	08	08	08	08

Ameritech version of C manifold assembly. Connects 1-5 cables to pressurized CA3131 air supply. Inlet connection is 1/8 NPT female opening. Outlet connections are 3/8IN plastic tube fittings.

260331277 MANIFOLD FLOW 501-1-1

N		EA	1	4	1	
---	--	----	---	---	---	--

Consists of 1 Model 501 Flow Transducer, 1 Model 230A Junction Box, & 1 Five Bank Manifold.

260331301 MANIFOLD FLOW 501-1-1P

N		EA	1	4	1	
---	--	----	---	---	---	--

Consists of 1 Model 501 Flow Transducer, 1 Model 230A Junction Box, 1 Five Bank Manifold, and 1 Sparton Model 730 UG-1 Pressure Transducer.

260331335 MANIFOLD FLOW 501-1-2

N		EA	1	4	1	
---	--	----	---	---	---	--

Consists of 1 Model 501 Flow Transducer, 1 Model 230A Junction Box, & 2 Five Bank Manifolds.

PRODUCT IDENTIFIER DESCRIPTION

ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C

260331368 MANIFOLD FLOW 501-1-2P

N		EA	1	4	1	
---	--	----	---	---	---	--

Consists of 1 Model 501 Flow Transducer, 1 Model 230A Junction Box, 2 Five Bank Manifolds, & 1 Sparton Model 730 UG-1 Pressure Transducer.

260331392 MANIFOLD FLOW 501-2-2

N		EA	1	4	1	
---	--	----	---	---	---	--

Consists of 2 Model 501 Flow Transducers, 1 Model 230A Junction Box, & 2 Five Bank Manifolds.

260331426 MANIFOLD FLOW 501-2-2P

N		EA	1	4	1	
---	--	----	---	---	---	--

Consists of 2 Model 501 Flow Transducers, 1 Model 230A Junction Box, 2 Five Bank Manifolds, & 1 Sparton Model 730 UG-1 Pressure Transducer.

260331152 MANIFOLD FLOW 502-1-1

N		EA	1	4	1	
---	--	----	---	---	---	--

Consists of 1 Model 502 Flow Transducer, 1 Model 230A Junction Box, & 1 Five Bank Manifold.

260331160 MANIFOLD FLOW 502-1-1P

N		EA	1	4	1	
---	--	----	---	---	---	--

Assembly consists of 1 Model 502 Flow Transducer, 1 Model 230A Junction Box, 1 Five Bank Manifold, & 1 Sparton Model 730 UG-1 Pressure Transducer.

260331178 MANIFOLD FLOW 502-1-2

N		EA	1	4	1	
---	--	----	---	---	---	--

Assembly consists of 1 Model 502 Powered (0-20) Flow Transducer, 1 Model 230A Junction Box, & 2 Five Bank Manifolds.

260331186 MANIFOLD FLOW 502-1-2P

N		EA	1	4	1	
---	--	----	---	---	---	--

Assembly consists of 1 Model 502 Flow Transducer, 1 Model 230A Junction Box, 2 Five Bank Manifolds, & 1 Sparton Model 730 UG-1 Pressure Transducer.

260331194 MANIFOLD FLOW 502-2-2

N		EA	1	4	1	
---	--	----	---	---	---	--

Consists of 2 Model 502 Flow Transducers, 1 Model 230A Junction Box, & 2 Five Bank Manifolds.

260331202 MANIFOLD FLOW 502-2-2P

N		EA	1	4	1	
---	--	----	---	---	---	--

Consists of 2 Model 502 Flow Transducers, 1 Model 230A Junction Box, 2 Five Bank Manifolds, & 1 Sparton Model 730 UG-1 Pressure Transducer.

260331285 MANIFOLD FLOW 503-1-1

N		EA	1	4	1	
---	--	----	---	---	---	--

Consists of 1 Model 503 Flow Transducer, 1 Model 230A Junction Box, & 1 Five Bank Manifold.

260331319 MANIFOLD FLOW 503-1-1P

N		EA	1	4	1	
---	--	----	---	---	---	--

Consists of 1 Model 503 Flow Transducer, 1 Model 230A Junction Box, 1 Five Bank Manifold, & 1 Sparton Model 730 UG-1 Pressure Transducer.

PRODUCT IDENTIFIER		DESCRIPTION				
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C
260432372			PANEL PIPE MODULAR DUAL TYPE PD			
N			W/Flow Transducer 0-50, powered.			
260432380			PANEL PIPE MODULAR DUAL TYPE PF			
N			W/Flow Transducer 0-100, powered.			
260431952			PANEL PIPE MODULAR SINGLE TYPE PAA			
N		EA	1		1	
			W/Flow Transducer 0-100, non-powered.			
260430152			PANEL PIPE MODULAR SINGLE (TYPE PA)			
N		EA	1		1	
			7 X 23IN. Provides continuous pressure regulated air flow from the C/O air dryer to the CA3131 air pipe. Each panel supplies 1 air pipe leaving office. E/W 1 non-powered flow transducer (0-50 SCFH).			
260430160			PANEL PIPE MODULAR SINGLE (TYPE PC)			
N		EA	1		1	
			7 X 23IN. Provides continuous press reg air flow from the C/O air dryer to the CA3131 air pipe. Each panel supplies 1 air pipe leaving office. E/W 1 powered flow transducer (0-50 SCFH) w/tee (plugged)			
260430178			PANEL PIPE MODULAR SINGLE (TYPE PE)			
N		EA	1		1	
			7 X 23IN. Provides continuous press reg air flow from the C/O air dryer to the CA3131 air pipe. Each panel supplies 1 air pipe leaving office. E/W 1 powered flow transducer (0-100 SCFH) w/press trans.			
401078712			PIPE AIR LEAD CA-1520			
N		FT	1	2	1	
			Extruded lead - antimony pipe with polyethylene jacket. Nominal dimensions: 1/4IN I.D., 1/2IN lead O.D., 0.63 total O.D.			
102930955			PIPE GAS FEEDER CA03131-001			
1225607	1	FT	IL IN MI OH WI 08 08 15 15 15			
			Aluminum line pipe used in cable pressurization systems for distributing dry air from the C.O., BSP 637-050-100, BSP 637-050-200, BSP 637-050-300 .			
102930963			PIPE GAS FEEDER CA03131-001 UM			
1938019	1	FT	IL IN MI OH WI 08 08 15 15 15			
			Aluminum line pipe, reinforced w/outer protection, used in cable pressurization systems for distributing dry air from the C.O. in buried applications.			
102739505			PIPE GAS FEEDER CA03131-002			
N		FT	1	6	2000	
102933280			PIPE GAS FEEDER CA03131-002 UM			
N		FT	1	6	2000

N		FT	1	6	2000	
260430228			PIPE GAS FEEDER CA3131 W/LEAD SHEATH			
N		FT	4900	4	4900	
			Aluminum lined pipe w/lead sheath used in cable pressurization systems for distributing dry air below ground in petroleum contaminated areas. Use with AMP-FIT fittings only.			
400320578			PLUG FLANGE PRESSURE CA07548			
1189290	1	PK	IL IN MI OH WI 08 08 08 08 08			
			Used to seal pressure flanges having a female 1/8 NPT thread (brass).			
280050717			PROBE HAND REPLACEMENT 1805-00220			
N		EA	1	2	1	
			Included with the 1805 Multisonic Translator/Detector. The probe is 6IN long with a diameter of 1.3IN. A 6FT coil cord is provided with the probe.			
260360979			PROBE MINI DUCT 1802D			
N		EA	1	2	1	
			Has same features as the Model 1801, in a lighter, more compact, portable unit. 300FT X 3/8IN rod. Includes an interconnect cable, dummy probe tip, and Distance Measuring Equipment (DME).			
260338603			RACK EQUIPMENT 23-84-T2-SE			
N		EA	1	4	1	
			Homaco. Used for mounting pipe panels & distribution panels in central offices. Has bolted construction, brushed alum finish, 23 X 84IN HIGH, 1/2IN center mounting holes on both sides, selfsupport base			
260432174			RACK PIPE PANEL/DISTRIBUTION PANEL			
N		EA	1		1	
			7FT equipment rack e/w a connecting block panel and 2IN PVC manifold. 23 X 84IN High with a 3 1/2 X 6FT self-support base. Top brace is 1.5X1.5IN extruded angle. Sides are drilled & tapped on 1/2IN ctrs

NUMBER	MULT.	UNIT	STOCK AVAILABILITY / PA	ORD.	ORD.	C

400218426 REGULATOR TEST PRESSURE C						
1163535	1	EA	IL IN MI OH WI			E
			12 12 12 12 12			

Controls the outlet pressure from nitrogen or helium gas cylinders in cable pressurization operations. Equipped with low pressure gauge (0-50 PSI) and high pressure gauge.

1163535

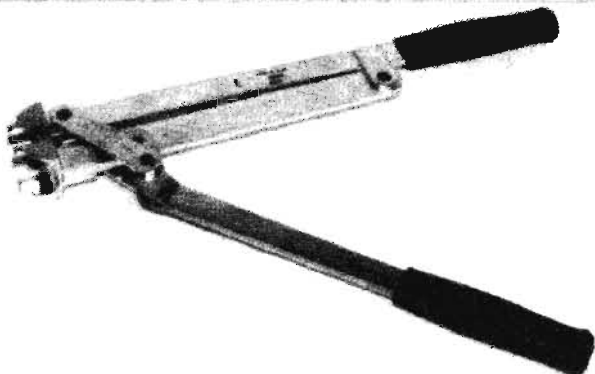

280050741 STRAP CARRYING 4200-00187						
N		EA	1	2		8

280050493 TIP DUMMY PROBE 1801-00202						
N		EA	1	2		3
Protects the end of the Model 1801 rod when the microphone probe tip is not in use.						

280050477 TIP MULTISONIC PROBE 1801-00198						
N		EA	1	2		1
Detects and pinpoints air leaks in ducted cables. It senses leaks from 100 Hz to 100 KHz when used with a Mark Model 1801 Duct Probe and Model 1805 Translator/Detector.						

280050485 TIP UG COIL PROBE 1801-00199						
N		EA	1	2		1
Underground Exploring Coil Probe Tip helps technicians pinpoint troublesome cable faults by locating shorts, crosses, and grounds.						

260302070 TOOL HAND AMP-FIT 3131 AIR PIPE 69992						
1938944	1	EA	IL IN MI OH WI			E
			12 12 12 12 12			
Used to crimp AMP-FIT connectors to CA-3131 air pipe.						

1938944

PRODUCT IDENTIFIER		DESCRIPTION						
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG.	LEAD TIME	MIN. ORD.	A	C	
			STOCK AVAILABILITY / PA					
400280368 TRANSDUCER PRESSURE C CA08311								
2308189	1	EA	IL 08	IN 08	MI 08	OH 08	WI 08	
Connected to aerial cable and electrically connected to an assigned working cable pair at a distribution cable terminal for monitoring of aerial cable pressure.								
401601547 TRANSDUCER PRESSURE F CA08772								
N		EA	1	4		2		
For remote monitoring of air pressure in the range of 0.0 to 9.5 PSI in 0.5 PSI increments. The F transducer must be installed in a C Pressure Transducer Housing.								
280002866 TRANSDUCER PRESSURE G-TYPE								
N		EA	1	3		2		
Self-contained unit which consists of an F Pressure Transducer attached to a mounting plate. Used in single install. 0-9.5 PSI Range A. Has B Fitting for 3/8IN plastic tubing. Without tubing.								
260432182 TRANSDUCER PRESSURE G-TYPE								
N		EA	1	3		1		
Self-contained unit which consists of an F Pressure Transducer attached to a mounting plate. Used in single installations. 0-9.5 PSI, Range A. Separate pressure input & sealed cable assy. W/O tubing.								
401601562 TRANSDUCER PRESSURE H CA08772								
N		EA	1	4		1		
Consists of an F transducer equipped with a wider flange at the base that allows the transducer to be installed in the B transducer housing. Measures air pressure flow in underground cable.								
300052719 TRANSDUCER PRESSURE MINI-F								
6509703	1	EA	IL 08	IN 08	MI 08	OH 08	WI 08	
For mounting on Chatlos TH5 or TH10 bank housing with 1.75IN hole spacing. Electrical output identical to F Pressure Transducer. For underground or aerial applications.								
300069119 TRANSDUCER PRESSURE PANEL								
5124552	1	EA	IL 08	IN 08	MI 08	OH 08	WI 08	
730 PME-1-A (or equivalent) with 15FT wire leads for inside installations. 5-14.5 PSI.								
400330189 TUBING C PLASTIC 3/8IN X 1 TUBE								
1283366	700	FT	IL 08	IN 08	MI 08	OH 08	WI 08	
CA08063 - 700 Maximum feet per reel. Provides air flow between air pressure devices that have 3/8IN tube fittings.								
400330213 TUBING C PLASTIC 3/8IN X 10 TUBES								
1128330	1	FT	IL 18	IN 18	MI 18	OH 18	WI 18	
Ten bundled tubes provides air flow between air pressure devices that have 3/8IN tube fittings.								
001123413 VALVE AIR FLOW CHECK								
5263301	1	EA	IL 08	IN 08	MI 08	OH 08	WI 08	
Allows free flow of air from manifold to cable. Prevents backflow of air. Mounts on 1/8 NPT female opening. Connects to 3/8IN tubing.								

PRODUCT IDENTIFIER		DESCRIPTION						
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG.	LEAD TIME	MIN. ORD.	A	C	
			STOCK AVAILABILITY / PA					
400284683 VALVE AIR REPAIR TR15								
1289603	1	EA	IL 08	IN 08	MI 08	OH 08	WI 08	
Used when providing a temporary protective covering over incomplete splices. Allows gas admission and pressure testing. Replaces oval base repair valve which is M/D. See BSP 633-040-201.								
400959763 VALVE BYPASS 3/8IN								
1148674	1	EA	IL 08	IN 08	MI 08	OH 08	WI 08	
Solid brass, cadmium plated, with stainless steel bonnet assembly, shut-off valve, connectors at each end for 3/8IN tubing, and two pressure testing valves.								
001123421 VALVE CHECK CONTROLLED FLOW								
5283327	1	EA	IL 08	IN 08	MI 08	OH 08	WI 08	
Allows free flow of air from manifold to cable. Constricts backflow to approximately 3/4 to 1 SCFH. Mounts on 1/8 NPT female opening. Connects to 3/8IN tubing.								
280007998 VALVE GLOBE 3/8 TUBE AMP-FIT 581306-1								
N		EA	1	6		1		
Connects two wnds of 3/8IN plastic tubing and provides a shut-off capability.								
300080058 VALVE HIGH 3/8 INCH - 1 PORT								
5124917	1	EA	IL 08	IN 08	MI 08	OH 08	WI 08	
Designed to facilitate a quick, easy-to-install, pressure test point in the manhole neck or on riser pole, where 3/8IN tubing is used.								
260430236 VALVE HIGH 3/8 INCH - 2 PORT								
N		EA	1	1		1		
Designed to facilitate a quick, easy to install, pressure test point in the manhole neck or on the riser pole, where 3/8IN tubing is used.								
300052156 VALVE HIGH 3/8 INCH - 5 PORT								
1155911	1	EA	IL 08	IN 08	MI 08	OH 08	WI 08	
Designed to facilitate a quick, easy to install, pressure test point in the manhole neck or on the riser pole, where 3/8IN tubing is used.								
260396627 VALVE HIGH FLOW FINDER MODEL 3010								
N		EA	1	1		1		
Enables air flow measurements to be taken from flow finders that are placed in hard-to-reach locations, such as the bottom of a manhole or on an aerial pipe. Consists of hi valve & custom fittings.								
400284709 VALVE PRESSURE TEST C								
N		PK	1	4		14		
Provides a permanent gas admission and pressure reading point on cables maintained under continuous pressure, package of 5. BSP 637-235-100.								
996147401 VALVE PRESSURE TESTING F								
1289686	1	PK	IL 08	IN 08	MI 08	OH 08	WI 08	
Provides gas admission and pressure reading points for cables under pressure. Mounts on 1/8 NPT female openings.								

PRESSURIZATION AIR DRYER

Provides gas admission and pressure reading points for cables under pressure. Mounts on 1/8 NPT female openings. Special short length for hard-to-get-at places. Previously called 420S.							
401761358 VALVE SHUTOFF C CA08779							
2672668	1	EA	IL IN MI OH WI 08 08 08 08				
For use between air pipe and manifold, BSP 637-050-100.							
002055044 VALVE SHUT-OFF 3131 AMP-FIT							
4206060	1	EA	IL IN MI OH WI 08 08 08 08				
Provides a readily accessible test or isolation point in the air pipe. Includes an F valve test point on each side of the shut-off valve.							
300080165 VALVE SHUT-OFF 3131 METAL							
1120394	1	EA	IL IN MI OH WI 08 08 08 08				
Provides a readily accessible test or isolation point in the air pipe. Includes an F valve test point on each side of the shut-off valve. Cadmium-plated brass construction.							

PRESSURIZATION AIR DRYER

280000852 ALTERNATOR AIR DRYER 99234/99250							
N		EA	1	3	1		
In the Alternate mode, designed to cycle on a 24-Hr basis in dual McIntire air dryer installations(8,12,17,25000). In Transfer mode, dryers are cycled manually. Full backup cap. if dryer malfunctions.							
260372677 ALTERNATOR AIR DRYER P-08033-G2							
N		EA	1	3	1		
Cycles 2 Air Dryers. Operates a comb. of Puregas (8,12,16,24000) & non-Puregas dryers. Optional mode selection: 16hr, 24hr, 7-day & standby. Auto start of standby dryer if on-line dryer alarm rings.							
260372685 ALTERNATOR AIR DRYER P-08033-G3							
N		EA	1	3	1		
Cycles 3 Air Dryers. Operates a comb. of Puregas (8,12,16,24000) & non-Puregas dryers. Optional mode selection: 16hr, 24hr, 7-day & standby. Auto start of standby dryer if on-line dryer alarm rings.							
260372693 ALTERNATOR AIR DRYER P-08033-G4							
N		EA	1	3	1		
Cycles 4 Air Dryers. Operates a comb. of Puregas (8,12,16,24000) & non-Puregas dryers. Optional mode selection: 16hr, 24hr, 7-day & standby. Auto start of standby dryer if on-line dryer alarm rings.

PRODUCT IDENTIFIER		DESCRIPTION				
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C

100399930 PROTECTOR 118A
 N EA 30 1 1
 Used with open wire subscriber lines on joint used poles, or as lightning protection for one pair of conductors having high dielectric insulating.

100399948 PROTECTOR 118B
 1197756 1 EA IL IN MI OH WI
 08 08 08 08 08
 Used for protecting both, C, rural wire and drop wire on jointly used poles carrying higher voltage power distributing circuits.

1197756

101951564 PROTECTOR 134A1A 16 12
 N EA 1 1 1
 Protectors for use as station protectors in buildings served by exposed cables, BSP 631-460-111, BSP 631-460-201.

101951580 PROTECTOR 134A1A 25 12
 N EA 1 1 1
 Cast resin block with 25 prs of #2A1A carbon protector units providing 500V protection. Includes two 12FT stub cables, a 24 gauge and a 26 gauge.

101951606 PROTECTOR 134A1A 50 12
 N EA 1 1 1

101205532 PROTECTOR 134A1A 50 25
 N EA 1 1 1

102165859 PROTECTOR 134A1A 100 12
 N EA 1 5 1

101413698 PROTECTOR 134A1A 100 25
 N EA 1 1 1

103389813 PROTECTOR 134E1A 25 12
 N EA 1 8 1
 Contains 25 pairs of #11A1 gas tube protector units with 12FT stub cables.

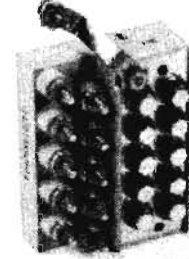

103389839 PROTECTOR 134E1A 50 12
 N EA 1 8 1

103389862 PROTECTOR 134E1A 100 12
 N EA 1 8 1

103389870 PROTECTOR 134E1A 100 25
 N EA 1 8 1

PRODUCT IDENTIFIER		DESCRIPTION				
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C

103213609 PROTECTOR 142E1A
 1160036 1 EA IL IN MI OH WI
 08 08 08 08 08
 A five pair protector for use with 5 pair B-Service Wire.

1160036

103289252 PROTECTOR 189B1 25 25
 N EA 1 1 1
 A combination 25 pair protector and terminating field with a 25ft stub. Uses 3 or 4B type protector units.

103289245 PROTECTOR 189B1 100 25
 N EA 1 1 1
 NOW AVAILABLE THROUGH TOUCH-TONE ORDER ENTRY.

103623633 PROTECTOR 189BC1 25
 N EA 1 1 1
 Same as 189B1-25 except equipped with a hinged cover.

103623641 PROTECTOR 189BC1 50
 N EA 1 1 1

103623658 PROTECTOR 189BC1 100
 N EA 1 1 1

103623666 PROTECTOR 189CC1 25 25
 N EA 1 1 1
 Similar to 189C1-25 except equipped with a cover.

103623674 PROTECTOR 189CC1 50 25
 N EA 1 1 1
 Similar to 189B1-50 except equipped with two KS16672L3 connectors in place of terminal dist field. Hinged cover.

103623682 PROTECTOR 189CC1 100 25
 N EA 1 1 1
 Similar to 189B1-100 except equipped with four KS16672L3 connectors in place of term dist field. Hinged cover.

102995073 PROTECTOR 190A1 50
 1973982 1 EA IL IN MI OH WI
 08 08 08 08
 Designed to accept 50 #3B or 4B type protector units. Equipped with 50-pair input and output cables, 25FT stub.

PRODUCT IDENTIFIER DESCRIPTION

ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C
-------------	------------	-----------	-----------------------------------	-----------	-----------	-----

102995099 PROTECTOR 190A1 100 25
 N EA 1 1 1
 Station protector used in buildings served by exposed cable - non gas tight.

260300496 PROTECTOR 190A1A3 50
 N EA 1 5 1

260300504 PROTECTOR 190A1A3 100

103550067 PROTECTOR 199A1A 10 25
 N EA 1 8 16
 Equipped with a #9A1A-10 type term block and a #119A1-25 conn block 12FT stub.

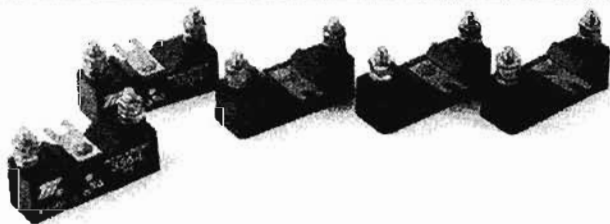

103644530 PROTECTOR 199A1A 50 12
 N EA 1 6 1
 Equipped with two #9A1A-25W term blocks. 12FT stub.

103644621 PROTECTOR 199A1A 50 50
 1130229 1 EA IL IN MI OH WI
 08
 A 50 pair protector to be used in an MC 10/48 closure. The protector consists of a 134A1A-50 and two 50 pair 76 type binding post blocks, with 50 feeder pairs on one & 50 distrib pairs on the other.

103644639 PROTECTOR 199A3A 25 50
 4232888 1 EA IL IN MI OH WI
 18
 A 25 pair protector for use on MC 10/48 closure. Consists of a 134A1A and two 50 pair 76 type binding post blocks w/25 feeder pairs on one, & 50 distrib pairs on the other.

103941274 PROTECTOR 208A
 N EA 1 9 1
 Consists of an unbalanced, dual-gap, three electrode, gas-filled surge limiter. Individual pack.

SEALANT

400494811 SEALANT B 3OZ TUBE CA08502							
1240564	1	TU					
Clear premixed thixotropic formulation used to insulate the ends of spare cable pairs in D.O.P. and to waterproof B wire connector joints in F cable closures.							

260425053 SEALANT TERMINAL PEDESTAL							
1976944	1	BX	IL 08	IN 08	MI 08	OH 08	WI 08
Replacement grease for termination ports of the AMP QUIET Front Terminal Block. 40 tubes per box.							

SEALANT DUCT

400264800 SEALANT DUCT PLASTIC 1LB CA07760X							
1100230	1	CT					
Plastic duct seal is a putty-like compound which retains a degree of plasticity, for sealing ducts under limited conditions. Not for use with polyethelene cable, BSP 628-220-224.							

400264818 SEALANT DUCT PLASTIC 5LB CA07760X							
1333682	1	PK	IL 35	IN 35	MI 35	OH 35	WI 35

SECTION TERMINAL

100667575 SECTION TERMINAL CABLE 1A1							
N		EA	1	2	1		
Accommodates one or two 1A4A or 1A4A16 terminal blocks or one 1A4A25 terminal block.							

100667583 SECTION TERMINAL CABLE 2A1							
N		BX	2	2	2		
Consists of a light olive gray sheet metal flat section, arranged for closing the ends of one or a group of No. 1A1 cable terminal sections, box of 2.

400328258 STRIP DESIGNATION CA8448
 N EA 1 13 1
 NOW AVAILABLE THROUGH TOUCH-TONE ORDER ENTRY.

STRIP FANNING

100730506 STRIP FANNING 19B
 N EA 32 2 32
 Molded insulating material. 20 wire holes or slots.

100730514 STRIP FANNING 20A
 N EA 1 13 1
 For use with terminal strips in the ED32152-01 Line Finder Unit in Step-By-Step systems.

100730522 STRIP FANNING 20B
 N EA 1 14 1
 For use with #252 type terminal strips in the J53125, #608A switchboard of PBX System.

100730589 STRIP FANNING 24A
 N EA 30 10 30
 Intended to mount directly on #251 type terminal strips used in the local AMA translator frame of the #5 Crossbar System.

100730597 STRIP FANNING 25A
 N EA 200 7 200
 Intended to mount directly on the #262 type terminal strips of the ED31274 selector frame.

STUB TERMINAL

100735927 STUB TERMINAL 1B1 25 FT
 N EA 1 1
 Lead sheath, used in conjunction with a #49A1 cable terminal.

SUPPORT

840890909 SUPPORT BRACKET ASSEMBLY
 N EA 1 14 1

400273074 SUPPORT CLAMP B CA07941
 1268706 1 EA IL IN MI OH WI
 08 08 08 08 08
 Used for all galvanized strand at maximum span lengths for in-line poles. Also when placing a second aerial cable on an existing 5/8in type A Suspension Bolt, BSP 627-220-204.

400273090 SUPPORT DEAD END CA07674
 1268763 1 EA IL IN MI OH WI
 14 14 14 14 14
 Used in supporting C rural wire where a dead end attachment is required, BSP 624-700-200.

400402483 SUPPORT RACK CABLE B CA08557
 1100503 1 EA IL IN MI OH WI
 35 35 35 35 35
 A steel support for use when mounting cable racks at corners in manholes 12FT long or longer, BSP 622-520-100.

400273215 SUPPORT RACK CABLE L CA06389
 N EA 25 8 25

400273223 SUPPORT RACK CABLE S CA06389
 1268904 1 EA IL IN MI OH WI
 35 35 35 35 35
 Short support, used to support cable racks in loading manholes, package of 50, BSP 622-520-100.

400315024 SUPPORT SHEAVE B CA07975
 1269027 1 PK IL IN MI OH WI
 08
 10 per package.

400315032 SUPPORT SHEAVE C CA07975
 N EA 1 4 2

900317587 SUPPORT SPLICE RC100
 N SE 1 2 1
 Permits fast multi-positioning of manhole racks or unistretts and hooks to facilitate supports of a closure.

401683537 SUPPORT TANGENT B CA08851
 2622688 1 EA IL IN MI OH WI
 18 18 18 18 18
 For use in supporting, F, multiple drop at intermediate poles, BSP 462-500-011.

SUPPORT CABLE

SEE TIE CABLE.

SUPPORT INSULATOR

400273108 SUPPORT INSULATOR B CA07772 951
 1268805 50 EA
 Consists of a cast iron or aluminum frame, 3/4in flange, with a set screw for securing the support in place. Intended for use as an intermediate attachment, BSP 080-720-136.

400273124 SUPPORT INSULATOR D CA07772
 1268821 15 EA IL IN MI OH WI
 08 08 08 08 08
 Consists of a cast iron frame, 3/4in or less flange, set screw for securing support, also provided with a 3/8in clean and two 10-24 tapped holes, BSP 627-610-200, BSP 462-350-213.

SUPPORT WIRE

400273272 SUPPORT WIRE C CA07758
 N EA 400 4 400
 For securing C rural wire at cross attachments, BSP 624-700-200, BSP 624-700-205.

400273280 SUPPORT WIRE D CA07758
 1268987 1 EA IL IN MI OH WI
 08 08 08 08 08
 For securing C rural wire to in-line-poles.

400273298 SUPPORT WIRE E CA07758
 N EA 400 4 400

SYSTEM

260422696 SYSTEM PRESSURE BLOCKING (PBSS) A
 N EA 10 6 10
 For forming a pressure dam in telecommunication cable. NOW AVAILABLE THROUGH TOUCH-TONE ORDER ENTRY.

260422704 SYSTEM PRESSURE BLOCKING (PBSS) B
 N EA 10 6 10
 For forming a pressure dam in telecommunication cable. NOW AVAILABLE THROUGH TOUCH-TONE ORDER ENTRY.

TAG

300060290 TAG 'CAUTION - FIBER OPTIC' DG6070
 1197558 1 EA
 Orange with black lettered tags will be used in the underground to tag innerducts for fiber optic cable installations. Tag is 2in x 3 1/2in.

260302989 TAG 'DEFECTIVE POLE B/C'

PRODUCT IDENTIFIER		DESCRIPTION					
ITEM	ORD.	SELL	STD. PKG.	LEAD TIME	MIN.	A	
NUMBER	MULT.	UNIT	STOCK AVAILABILITY / PA			ORD.	C

400591582 ADAPTER BRIDGING 283-95-1

1228056	1	EA	IL	IN	MI	OH	WI
			18	18			

Amphenol, consists of 2 sets of CK16672 L3 connector & 2 sets of 5 each CK16671 L1 plug bridged together pair to pair. Used to bridge 100 pair cables to 2-30 line Call Directors.

400000220 ADAPTER BRIDGING CK19252 L 1

1100685	1	EA	IL	IN	MI	OH	WI
			18	18	18	18	18

Equipped with 2 connectors and one plug to receive an A-type connector cable for a two plug-ended telephone set, BSP 461-200-182.

400000238 ADAPTER BRIDGING CK19252 L 2

1100701	1	EA	IL	IN	MI	OH	WI
			59	59	59	59	59

Equipped with 2 plugs and one connector to receive an incoming and outgoing A-type connector cable for a one plug-ended telephone set, BSP 461-200-182.

260445051 FILTER AIR							
N							Used in LTS-21130D Terminal.
403322266 FILTER AIR 72852570 PRIMARY							
N		EA	1	2	1		7-3/4 X 2-1/2 X 1/8IN.
280014937 FILTER AIR 72852571 PRIMARY							
N		EA	1	2	1		
260383443 FILTER AIR 73045700							
N		EA	1	2	1		9733 16 X 3-1/2 X 1/4IN.
260382452 FILTER AIR 95966090							
N		EA	1	2	1		5-1/2 X 5-1/4 X 5-1/2IN.
260336623 FILTER AIR CDC 72852571							
N		EA	1	2	18		For CDC disk file in WE3B processor.
300085776 FILTER AIR CDC 94358000							
N		EA	1	2	1		A piece for the disk drive of a 3B Processor.
280046954 FILTER AIR PRIMARY 72852571							
1925867	1	EA	IL 09	IN 09	MI 09	OH 09	WI 09
Foam filter for 340 meg bit disk drive for #5ESS office. 8-3/4 X 2-1/2 X 1/4IN. 9715.							
402853576 FILTER AIR UAF 204							
1947770	1	EA	IL 09	IN 09	MI 09	OH 09	WI 09
A piece part for the 3M Processor, 11.30 X 14.10 X .50IN.							
280031022 FILTER AIR UAF 211 AM 5ESS							
1942052	1	EA	IL 09	IN 09	MI 09	OH 09	WI 09
11.25 X 14 X .50IN.							
403282296 FILTER AIR UAF 213							
N		EA	100	3	100		Central Office filter, 3.88 X 4.50 X .50IN, for the #5 ESS Frames.
280031030 FILTER AIR UAF 214							
N		EA	80	3	160		6.50 X 6.88 X .50IN.
403282338 FILTER AIR UAF 218							
N		EA	1	1	100		Central Office filter, 7.00 X 7.37 X .50IN, for the #5 ESS Frames.
300076338 FILTER AIR UAF 233							
5122002	1	EA	IL 31	IN 31	MI 31	OH 31	WI 31
Central office filter for 5ESS frames, 13.87 X 22.75 X .50IN. Size 11.3 X 14.1 X .50IN replaces UAF 202 filter.

402856033 BATTERY 1.5 VOLTS ALKALINE D
 1216614 1 EA IL IN MI OH WI 12 12 12 12 12 E
 To be used in test sets also as heavy duty replacement battery for use with the flashlight, heavy duty, DFF.

997764949 BATTERY 1.5 VOLTS CK14495
 1108225 1 EA IL IN MI OH WI 12 12 12 12 12 E
 Supplies the bias voltage and filament current for Set Test 99B, BSP 157-421-101.

401130794 BATTERY 1.5 VOLTS GP 8
 2671040 1 EA IL IN MI OH WI 12 12 12 12 12 E
 A heavy duty battery used in negative superimposed ringing plants. Used in lieu of CK06542 battery when a heavy duty battery is required.

997326814 BATTERY 1.5 VOLTS GP N
 1218305 1 EA IL IN MI OH WI 12 12 12 12 12 E
 Used in various test sets and for transistor radios. Size 1 1/8in long by 7/16in diameter.

997801006 BATTERY 4.5 VOLTS CK06569
 N EA 10 9 60 E

997801634 BATTERY 4.5 VOLTS CK06570
 1107920 1 EA IL IN MI OH WI 12 12 12 12 12 E
 For test set service. Equipped with thread and nut terminals, package of 60, BSP 157-421-101.

400650008 BATTERY 4.5 VOLTS GP DRY
 2658260 1 EA IL IN MI OH WI 12 12 12 12 12 E
 For use in the Dynatel 710 test set.

401457916 BATTERY 5.6 VOLTS E164 MERCURY
 1136101 1 EA IL IN MI OH WI 12 12 12 12 12 E
 Used with the Hewlett-Packard quik-search hand wand model # 18002-63801.

PRODUCT IDENTIFIER		DESCRIPTION					
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A	C
ADAPTER							
101220069 ADAPTER 149B							
1100388	1	EA					
Adapter consists of a small terminal block assembly equipped with one CK16671 L1 and one CK16672 L1 connector. Used with plug ended telephones, BSP 461-200-182.							
102949013 ADAPTER 223D							
1139915	1	EA	IL 04	IN 04	MI 04	OH 04	WI 04
Used to interconnect the 4 A Speakerphone, C680A Transmitter, 108 A Loudspeaker Set and the 851 Power Unit, when an 82 type connecting block cannot be used, BSP 512-700-100.							
103766630 ADAPTER 225A 50							
1227934	1	EA	IL 04	IN 04	MI 04	OH 04	WI 04
Used to adapt D4BU mounting cord to 550 type jacks, BSP 461-630-100.							
103715082 ADAPTER 267A 2							
1301276	1	EA	IL 04	IN 04	MI 04	OH 04	WI 04
Use to connect two 4 conductor modular cords to a modular connecting block, BSP 503-100-100.							
103715652 ADAPTER 267C							
1966895	1	EA	IL 04	IN 04	MI 04	OH 04	WI 04
Splits RJ14C (two line outlet) into two separate lines.							
103786240 ADAPTER 451A							
N		EA	1		2		1
280050782 ADAPTER 9 PIN RECEPTACLE H8575B

BUBBLE PACK

SEE PACKING MATERIAL.

BUZZER

100014349 BUZZER 7D 49
 N EA 1 2 1
 Low voltage buzzers for AC or DC signaling. Refer to Tab-A in BSP 501-120-100 for operating voltages.

100014356 BUZZER 7E 49
 N EA 1 1
 Low voltage buzzers for AC or DC signaling. Refer to Tab-A in BSP 501-120-100 for operating voltages.

997912662 BUZZER CK08109 L2
 1183814 1 EA IL IN MI OH WI
 04 04 04 04
 A single coil buzzer used with AC or DC voltages 14 to 30 volts, 50 to 60 cycles, BSP 501-120-100.

400021796 BUZZER CK14458 L1
 N EA 1 2 1

402699011 BUZZER CK20419 L2
 1222091 1 EA IL IN MI OH WI
 04 04 04 04
 A miniature 6 to 10 volt AC buzzer e/w two spade tipped leads and a volume adjusting screw. Can be mounted on one of the dial mounting screws of a telephone set, BSP 501-120-100.

UNIT AUXILIARY LINK								
TIE 88165.								
280022690	N	EA	1	2	1			
UNIT DISPLAY VM1002								
260325303	N	EA	1	4	1			
UNIT MAIN LINE TIE 88175								
300064862	N	EA	1	2	1			
UNIT PAGING ACCESS KA-380								
Provides paging access to an external amplifier.								
500049341	N	EA	1	4	1			
UNIT PAPER TAPE 4250AAA								
102089315	N	EA	1	4	1			
UNIT SERVICE KEY 551C								
A factory wired 1A2 key telephone system package to mount 4ea 499 type KTU e/w power.								
300060464	1193698	1	EA	IL 04	IN 04	MI 04	OH 04	WI 04
UNIT STATION M-822								
Station unit of an asynchronous data communication network which allows simultaneous transmission of voice and data over existing telephone loops.								
UNIT CHANNEL								
102278918	N	EA	1	9	1			
UNIT CHANNEL SERVICE 550A L1/2

NOTES

NOTES

SECTION 8 - DATA/VOICE **MATERIAL INCLUDED**

- PERSONAL COMPUTER EQUIPMENT
- PRINTER EQUIPMENT
- TELEPHONES AND RELATED EQUIPMENT
- TERMINALS AND RELATED EQUIPMENT
- SOFTWARE

The DATA/VOICE Section is designed to assist the end-user in selecting and ordering specific Standard Operating Environment (SOE) equipment.

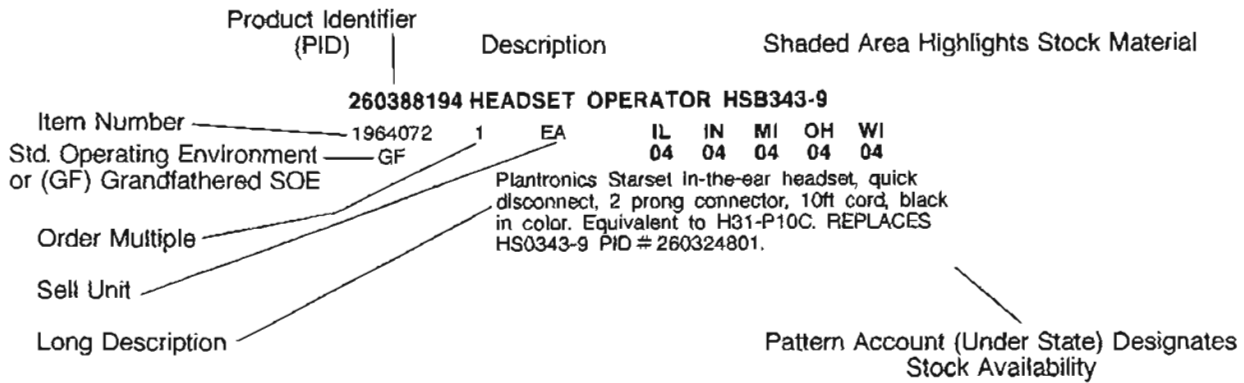

Due to the large scope of this project and publishing deadlines, a number of products have not been converted to the DATA/VOICE Section. Non-SOE material located in this section will continue until stock is depleted.

We are concerned and value your ideas. Please contact the Ameritech Bell Group Catalog Department direct on (708) 248-8313 with questions, corrections and ideas.

N

DB9 Female to RJ45 DTE Adapter for Model 3395 Terminal Server.

260444575 ADAPTER RJ45 TO 50 PIN 810

N

Adapts from 8 RJ45 Connectors to a 50-pin Connector.

260444443 BACKPLANE ETHERNET/TOKEN RING 980-255

N

Includes Redundant Power Supply for Model 3000 Premises Concentrator.

260444435 BACKPLANE FDDI/ETHRNT/TOKEN RING 980-179

N

For Model 3000 Concentrator.

260444450 BACKPLANE FDDI/ETHRNT/TOKEN RING 980-275

N

Includes Ethernet, Token Ring, and Redundant Power Supply for Model 3000 Premises Concentrator.

260444583 BRACKET WALLMOUNT 980-240

N

Wallmount bracket for Model 354-ST Token Ring Fiber Optic Extender.

260444468 CABLE GUIDE 980-169

N

Cable guide for 19IN Rack Mount for System 3000 Concentrator.

260443874 CONCENTRATOR AREA 2310-02-A

N

10BASE-T preconfigured 36-port Ethernet Concentrator includes Power Supply, IP Firmware, and license for Advanced Network Interface Management Agent.

260443866 CONCENTRATOR DEPARTMENT 3030-04

N

Includes Chassis, Backplane with Ethernet, 2 Token Ring buses, dedicated Network Interface Management buses and Power Supply.

PRODUCT IDENTIFIER							DESCRIPTION
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C	DESCRIPTION
260444484							KIT WALLMOUNT 980-112 N For Model 3030 or Model 2310 Concentrator.
260444369							MEDIA FILTER 550A N Token Ring Unshielded Twisted Pair Lobe.
260444377							MEDIA FILTER 551 N Token Ring Unshielded Twisted Pair Repeater.
260443429							MEDIA FILTER TOKEN RING INTEGRATED 955 N For unshielded twisted pair lobe connections, 15FT.
260444039							MODULE ETHERNET 3314-ST-02-A N Network Management Module with ST FOIRL Fiber Port, RS232 Port, IP Firmware and license for Advanced Network Management Agent.
260444021							MODULE ETHERNET NETWORK MGMT 3313-02-A N Includes AUI Port, RS232 Port, IP Firmware and license for Advanced Network Management Agent.
260444419							MODULE FAN TRAY 980-108 N For Model 3000 Premises Concentrator.
260444070							MODULE FDDI NETWORK MANAGEMENT 3910S-04 N With Local Load capability. Includes license for Advance Network Management Agent.
260443924							MODULE HOST ETHERNET 10BASE-T 3307 N 50-pin TELCO-D Connector provides communication channels to compatible 508A 10BASE-T transceivers, network interface cards, or other host module ports. Supports 12 host connections.
260443932							MODULE HOST ETHERNET 10BASE-T 3308A N Features 12 RJ45 connectors to provide communication channels to compatible Ethernet host devices and Ethernet modules over UTP WIRE (USE IN COMPLIANCE W/AMERITECH PREMISE WIRING STANDARDS DOCUMENT).
260443908							MODULE HOST ETHERNET THIN NET 3301 N Provides eight 10BASE-T compatible BNC connectors to support connections to compatible Ethernet host devices.
260443916							MODULE HOST FIBER OPTIC ETHERNET 3304-ST N Provides FOIRL compatible signaling to Ethernet host devices via six dual ST type fiber connectors.

PRODUCT IDENTIFIER							DESCRIPTION
ITEM NUMBER	ORD. MULT.	SELL UNIT	STD. PKG. STOCK AVAILABILITY / PA	LEAD TIME	MIN. ORD.	A C	DESCRIPTION
260444013							MODULE HOST FIBER OPTIC FDDI 3904 N
260444005							MODULE HOST STP FDDI 3902 N Shielded Twisted Pair FDDI.
260443973							MODULE REPEATER 3532 N Token Ring Shielded Twisted Pair (STP).
260443981							MODULE REPEATER 3534-ST N Token Ring Fiber Optic.
260443940							MODULE RETIMING 3333 N Ethernet with AUI port.
260443957							MODULE RETIMING 3334-ST N Ethernet with ST FOIRL fiber port.
260443965							MODULE TOKEN RING HOST 3502-A N (STP/UTP). Provides 12 host communications channels to support Token Ring stations and compatible Token Ring modules operating at 4Mbps to 16Mbps.
260444047							MODULE TOKEN RING NETWORK MGMT 3512A N With Shielded Twisted Pair Ring-In/Ring-Out. Includes License for Advanced Network Management Agent.
260444054							MODULE TOKEN RING NETWORK MGMT 3514-ST-A N With Fiber Optic Repeater. Includes license for Advanced Network Management Agent.
260443999							MODULE TOKEN RING RI/RO STP 3552 N Shielded Twisted Pair Ring-In/Ring-Out with 2 DB-9 connectors.
260444385							POWER SUPPLY 3002 N 460 watt Power Supply Module for Model 3000 Premises Concentrator.
260444427							POWER SUPPLY AND FAN UNIT 980-113 N For Model 3030 Department Concentrator.
260444344							POWER SUPPLY REDUNDANT 3100R N Redundant Power Supply Summing Module for Model 3000 Premises Concentrator.
260444393							POWER SUPPLY REDUNDANT 975-069 N Upgrade Kit for Model 3000 Chassis. Ethernet and Token Ring, Redundant Power Supply Backplane and 3100R Summing Module.

260444401 POWER SUPPLY REDUNDANT 975-111
N
Upgrade Kit for Model 3000 Chassis. FDDI/Ethernet/Token Ring/Redundant Power Supply Backplane and 3100R Summing Module.

260444112 ROUTER LOCAL ETHERNET 3383
N
Includes AUI Port and Right-To-Use License.

260444138 ROUTER LOCAL ETHERNET FOIRL 3384-ST
N
Includes FOIRL Fiber Port and Right-To-Use License.

260444146 ROUTER REMOTE ETHERNET 3386-01
N
Includes Right-To-Use License.

260444161 ROUTER REMOTE ETHERNET 3386-02
N
With 4MB Memory Option. Includes Right-To-Use License.

260444179 ROUTER REMOTE ETHERNET 3386-03
N
With 4MB Memory Option and X.25/Frame Relay Option. Includes Right-To-Use License.

260444278 TERMINAL SERVER 3395-01
N
With TCP/IP Support.

260444203 TERMINAL SERVER 3395-02
N
With TCP/IP and LAT Support, includes LAT license.

260444229 TERMINAL SERVER LAT UPGRADE SU3395-A
N
LAT Upgrade License for Terminal Server.

260444260 TRANSCEIVER 10BASE-T 508A
N

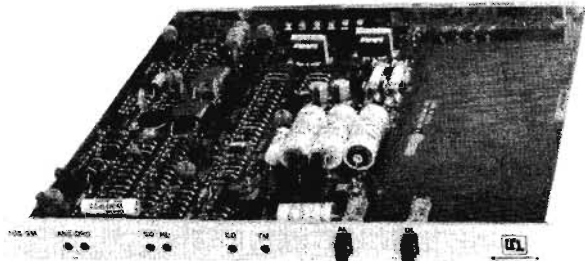

260444302 TRANSCEIVER 504-ST
N
Ethernet Fiber Optic.
