SMAS IS A REMOTE TESTING SYSTEM WHEREBY A COMMON POINT ON A SPECIAL SERVICE CIRCUIT IS PROVIDED TO A TEST POSITION. EACH CIRCUIT COULD HAVE ONE OR MORE TEST POINTS. THESE TEST POINTS ARE INSTALLED TO PROVIDE ISOLATION OF EQUIPMENT AND FACILITIES IN EACH CENTRAL OFFICE. THREE LINES ARE REQUIRED ON THE SSWO WHEN ENTERING THE SMAS ASSIGNMENT AND TEST INFORMATION. REFER TO FORMAT SHOWN ON PAGE 3 AND SAMPLE ASSIGNMENT CARDS ON PAGES 7 & 8. THE FOLLOWING OFFICES PRESENTLY HAVE SMAS EQUIPMENT OR WILL BE OBTAINING IT IN THE FUTURE. FUNCTION CODES (FCTCD) ARE ALSO SHOWN AS AN AID FOR TIRKS ASSIGNING.

SMAS Access will be placed on all:

Interstate Circuits

A Special Service Circuit which is between states or companies

Intrastate Interoffice Circuits

A Special Service circuit which is intrastate and uses inter-central office building facilities (except DC alarms)..

Long Lines Circuits

Access points will be assigned at the Long Lines - Wisconsin Telephone Company meet point.

OCC - Other Common Carrier Voice Grade Circuits

All Data Circuits - except wide band and digital data

SMAS will not be placed on:

Intrastate and Intraoffice Circuits

A Special Service circuit which is intrastate and does not use inter-central office building facilities (except data circuits).

Wide Band Data

Digital Data

Secretarial Lines and Trunks

All Official Wisconsin Telephone Company Voice Grade Circuits

(incl
DATA?)

Program Circuits - PERM or TEMP

All FXCB - Foreign Central Office

DC Alarm Circuits

DC Test Circuits

DC Telegraph Circuits

Any Long Lines control, test or maintenance CKT, (ie: XROC, ROC, CI, TDAS)

*PBX Tie Trunks

*PBX Central Office Trunks

*Direct Inward Dial Trunks

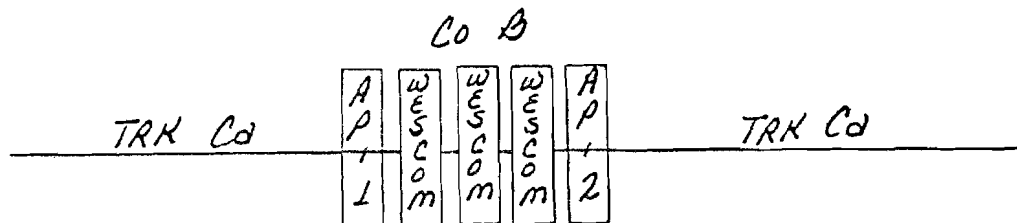

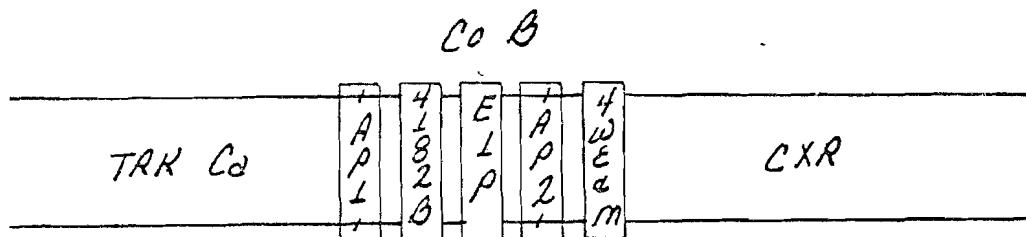

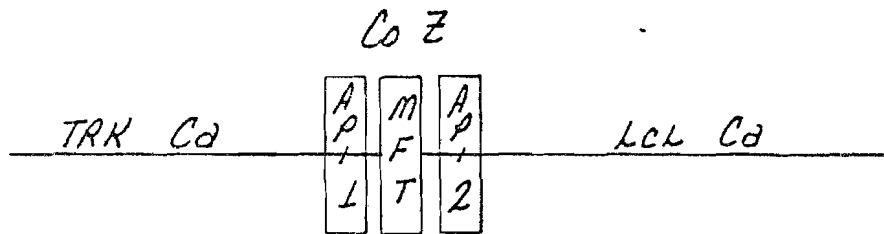

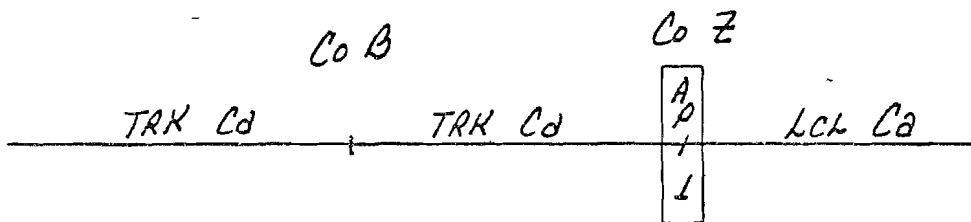

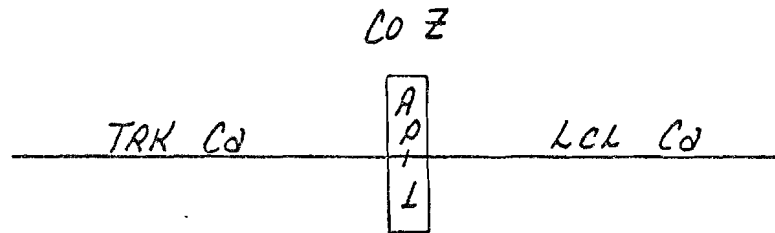

*Direct Outward Dial Trunks

*Requires SMAS if Inter-Office facilities are used

JUN 14 1982

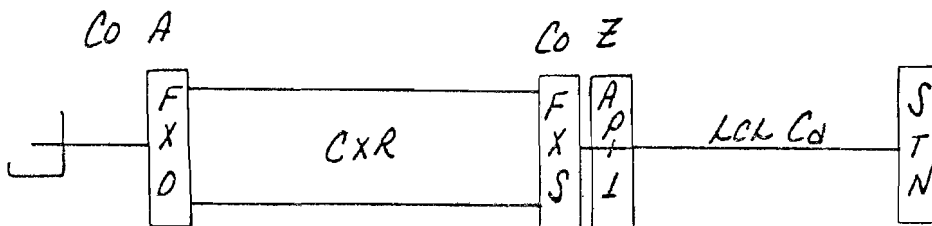

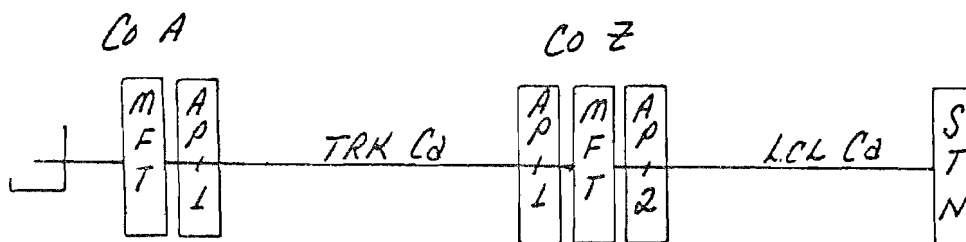

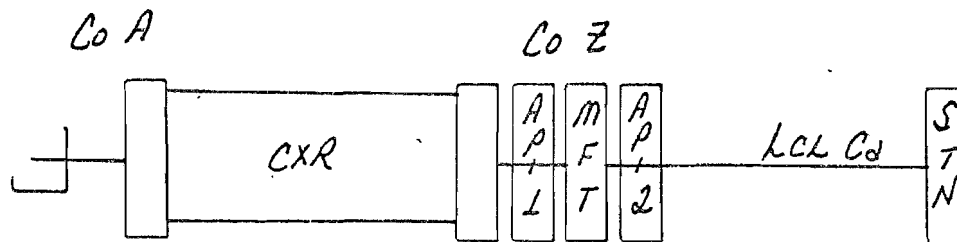

SAMPLE SMAS ASSIGNMENT POINTS

Both Sides of Central Office

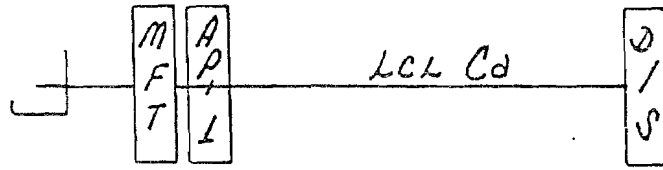

SAMPLE SMAS ASSIGNMENT POINTS

Both Sides of Central Office

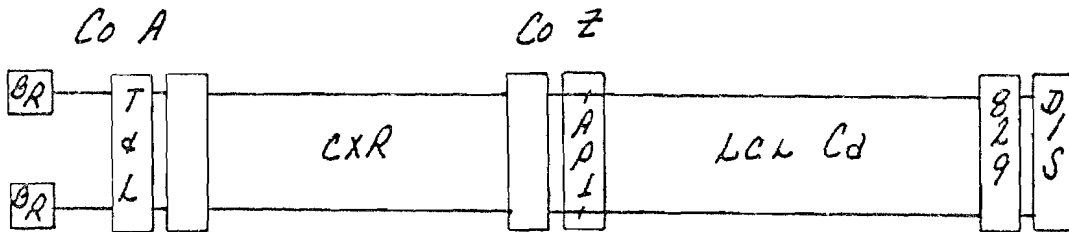

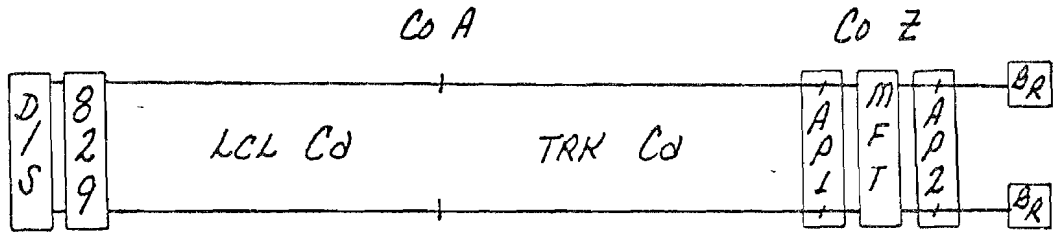

All Data - Except Wide Band and Digital Data
