STRONG, LOUD AND CLEAR WITH LRAD 1000

LRAD 1000 is lightweight and can be easily transported to provide security personnel long range communications and a highly effective hailing and warning capability where needed.

The superior voice intelligibility and clarity of LRAD 1000 provides a directional audio beam that can communicate with high intelligibility over 88 dB of background noise beyond 650 meters and capable of communicating over 2000 meters away in a benign environment. LRAD 1000 operators have the ability to issue clear, authoritative verbal commands, followed with powerful deterrent tones to enhance response capabilities. The extended frequency range of LRAD 1000 ensures voice commands will be clearly understood.
