

# CLAY

## (POISON-BIOLOGICAL)

THIS CLAY OR TAR IS EASILY ACCESSIBLE AT THOUSANDS OF LOCATIONS EVERYWHERE.

COMMON POISONING IS BY INGESTION OF EXPENDED CLAY PIGEONS OR COAL TAR.

SYPTOMS OF PITCH POISONING:

WEAKNESS, ATAXIA, ICTERUS WITH ENLARGED LIVER AND DEATH FROM HEPATIC FAILURE...TREATMENT IS SYMPTOMATIC.

---

IT IS RECOMMENDED THAT IF YOU PLAY WITH THIS STUFF YOU WEAR A PAIR OF RUBBER GLOVES AND A DUST MASK AS IT WILL CAUSE LUNG PROBLEMS IF INHALED IN LARGE AMOUNTS. ALSO DO NOT GET THE DUST INTO YOUR EYES OR IN CUTS.

---

PITCH IS A PHOTSENSITIZING COMPOUND, MEANING IT CAUSES SKIN ERUPTIONS PROVOKED BY LIGHT AND LIMITED TO EXPOSED SURFACES.

---

PITCH CAN BE PURIFIED BY USE OF PETROLEUM DISTILLATES AND WATER. PITCH CLAY OR TAR CAN BE WASHED WITH HOT WATER AND MADE INTO A MUSH, THE LEFT OVER IS GOOD PITCH.

---

HOW TO MAKE POISON FROM PITCH:

1. BREAK UP 3 CLAY PIGEONS AND PLACE IN JUNKY BOILING PAN.
2. ADD 3 CUPS ACETONE AND HEAT JUST BELOW BOILING POINT.
3. IT SHOULD DISSOLVE AND TURN INTO A MUSH OF MUD.
4. ADD 6 MORE CUPS OF ACETONE AND STIR UNTIL YOU OBTAIN A SOUPY MIX, KEEP THE HEAT ON IT FOR 10 MORE MINUTES.
5. NOW LET IT SIT AT ROOM TEMPERATURE FOR 3-4 HOURS.
6. POUR OFF THE LIQUID INTO A JAR WITH A WIDE MOUTH.
7. HEAT THE JAR IN A WATER BATH AND EVAPORATE THE ACETONE.
8. YOU SHOULD NOW HAVE A FINE CRUST OF BLACK MATERIAL IN THE JAR.

9. SCRAPE OUT THE BLACK CRUST AND GRIND INTO A POWDER AND ADMINISTER TO YOUR TARGET.
  10. YOU CAN ADD HOT WATER TO THIS, JUST ENOUGH TO MAKE IT THICK PASTE, NOW ADD DMSO AND PLACE ON TARGETS DOORKNOB OR FOOD.
  11. YOU CAN KEEP USING THE MATERIAL IN THE PAN TO MAKE THREE OR FOUR MORE BATCHES.
- 

THIS MATERIAL CAN BE DISGUISED AS OIL OR GREASE WHEN MIXED WITH DMSO...PLACE LARGE GLOBS OF IT ON AREAS UNSUSPECTING.

---

THIS MATERIAL CAN ALSO BE PLACED IN HOLLOW POINT BULLETS AND ALLOWED TO DRY, WITHOUT DMSO. WHEN THE BULLET HITS IT WILL DISTRIBUTE THE POWDER THROUGHTOUT THE BLOOD INTERNALLY.

---

ADMINISTERING CAN BE SYSTAMATIC AND LONG TERM, THE POISON WILL AD UP IN THEM...

---

GOTO [W@LM@RT](#) AND BUY CLAY PIGEONS OR FIND OLD ONES OUT IN A FIELD. OR YOU CAN JUST BUY SOME COAL TAR.

IF YOU USE COAL TAR, PERFORM THE ACETONE EXTRACTION METHOD NOTED ABOVE TO ACHEIVE A POWEDERED FORM.

---

INFO-LABS IS NOT RESPONSIBLE FOR USE OR MISUSE OF THIS INFORMATION OR ANY SIMILAR INFORMATION. DO NOT MAKE THIS MATERIAL. IF YOU DO YOU ARE SOLEY RESPONSIBLE FOR ANY LEGALITIES PERTAINING TO IT.
