

NICOTINE

NICOTINE IS EXTRACTED FROM TOBACCO. TOBACCO IS THE MOST EASILY AVAILABLE POISONS ON THE OPEN MARKET RIGHT IN FRONT OF EVER BUREAUCRATS FACE AND THE FUNNY THING IS THAT HALF OF THEM USE IT.☺

NICOTINE WAS ONCE WIDELY USED IN INSECTICIDES BECAUSE IT IS SOOOO EFFECTIVE AGAINST RODENTS, OR IN OUR CASE HUMAN PESTS OR PEOPLE WHO DESERVE TO DEPART THIS PLANET.

IT ONLY TAKES 2 DROPS OF PURE NICOTINE TO KILL!!!IT'S THAT SIMPLE.

ALSO NOTE THAT YOU CAN USE TOBACCO FROM TOBACCO TREES AND VARIOUS TOBACCO PLANT VARIETIES IN YOUR LOCAL AREA. DESERT TOBACCO IS THE MOST POTENT OF LOCALIZED PLANTS FROM THE WILD.

THE EXTRACTION PROCESS NOTED IN THIS PAPER WILL GIVE YOU THE PURE EXTRACT OF NICOTINE. IT IS VERY DEADLY AND SHOULD BE TREATED AS SUCH. DO NOT MAKE THIS SUBSTANCE.

SYMPTOMS OF NICOTINE POISONING:

RESPIRATORY DEPRESSION, UNCONSCIOUSNESS AND DEATH WITHIN 5 MINUTES TO 4 HOURS, DEPENDING UPON DOSAGE. NICOTINE IS PRESENT IN TOBACCO AT A CONCENTRATION OF 2 TO 8% BY WEIGHT.

NICOTINE IS SOLUBLE IN WATER AND ETHANOL. NICOTINE IS GOOD AS A PROJECTILE POISON BECAUSE IT IS SO STICKY. MIXED WITH DMSO IT IS THE IDEAL POISON TO LEAVE ON A DOORKNOB.

DOSAGE:

80MG, 2 DROPS, FOR NON SMOKERS. 240MG, 6 DROPS, FOR SMOKERS. THE MORE THE BETTER BUT LARGER DOSES MAY CAUSE THEM TO PROJECTILE VOMIT WHICH WILL EMPTY THE STOMACH OF THE NICOTINE.

PRODUCTION OF NICOTINE POISON EXTRACT:

PREHEAT OVEN TO 250DEGREES F FOR 10 MINUTES. TURN OFF AND PLACE TOBACCO ON A COOKIE SHEET AND DRY FOR 10 MINUTES. LEAVE OVEN DOOR CRACKED AND MAKE SURE YOU DON'T SCORCH IT.

WHEN DRY, GRIND UP THE TOBACCO INTO A FINE POWDER. PLACE IN JAR AND COVER WITH TWICE AS MUCH LIME WATER, BY VOLUME, NOT WEIGHT.

HEAT ALMOST TO BOIL FOR 5 MINS. REMOVE AND LET SIT OVERNIGHT, SHAKE OCCASIONALLY.

REHEAT TO BOILING AND FILTER TO REMOVE THE TOBACCO PARTICLES.

FILL A STILL 1/3 TO 1/2 FULL OF THE LIQUID AND ADD A FEW BOILING STONES AND DISTILL UNTIL THE LIQUID IS ALMOST GONE. A BROWNISH BLACK RESIDUE WILL REMAIN WHICH IS MOSTLY TARS.

COOL THE DISTILLATE TO ROOM TEMP. ADD TO A SEP FUNNEL WITH AN EQUAL VOLUME OF ETHYL ETHER AND SHAKE FOR 2 MINS.

ALLOW THE LAYERS TO SEP, DRAW OFF THE BOTTOM LAYER AND DISCARD.

PLACE THE UPPER ETHER LAYER IN A FLASK AND HEAT ON A HOT WATER BATH...NOTE THAT ETHER IS EXPLOSIVE, VENT IT OUTSIDE.

YOUR REMAINDER IS VERY GOOD GRADE NICOTINE. PLACE THE THICK GEL IN AN AIRTIGHT CONTAINER AND SEAL WELL,,,FREEZE IT FOR STORAGE.

INFORMATION LABORATORIES OR ANY OF IT'S AFFILIATES ARE IN NO WAY RESPONSIBLE FOR THE USE OR MISUSE OF ANY INFORMATION OBTAINED FROM INFO-LABS OR ANY OTHER SOURCE. DO NOT MAKE THIS SUBSTANCE.
