

PCFILLER, EXPLOSIVE

PC FILLER... PC STANDS FOR POTASSIUM CHLORATE. POT CHLOR OR PT IN SHORT. THIS STUFF IS EXPLOSIVE BY ITSELF OR WITH ADDED SENSITIZERS. BELOW WILL BE A LIST OF PT AND NEXT TO IT A SENSITIZER TO MAKE IT MORE EXPLOSIVE AND EASIER TO DETONATE.

TO MAKE A C4 LIKE PLASTIQUE WITH PC. MEASURE OUT 1 PART VASELINE AND 8 PARTS PC. PLACE THE VASELINE IN A GLASS MIXING BOWL AND HEAT UNTIL MELTED AND CLEAR. ADD ¼ CUP ACETONE AND STIR UNTIL ALL ACETONE IS EVAPORATED. THIS CAUSES A CHEMICAL REACTION TO TAKE PLACE IN THE VASELINE WHICH MAKES IT MORE REACTIVE TO THE PC. MIX THE PC AND REACTED VASELINE TOGETHER AND KNEED INTO A RUBBERY BALL. PLACE IN A CONFINEMENT AND DETONATE WITH J1 DET.

PC FILLER EXPLOSIVE MIXTURES:

| | | |
|-------------------|-------------------|---------------------|
| 2 PARTS PC | 3 PARTS PC | 3 PARTS PC |
| 1 PART EXPLOSIVE | 2 PARTS EXPLOSIVE | 1 PART EXPLOSIVE |
| ¼ PART CONF SUGAR | 1/3 PART SULFUR | ¼ PART SMKLESS PWDR |
| 2 PARTS PC | 2 PARTS PC | 2 PARTS PC |
| 1 PART EXPLOSIVE | 1 PART EXPLOSIVE | 1 PART EXPLOSIVE |
| ¼ PART BLK PWDR | ¼ PART FLOUR | ¼ PART CHARCOAL |

OR JUST PLAIN OLD

2 PARTS PC AND 1 PART EXPLOSIVE
